MA-SqueezeliteBrowse: menu walkthrough

piCorePlayer (JiveLite)

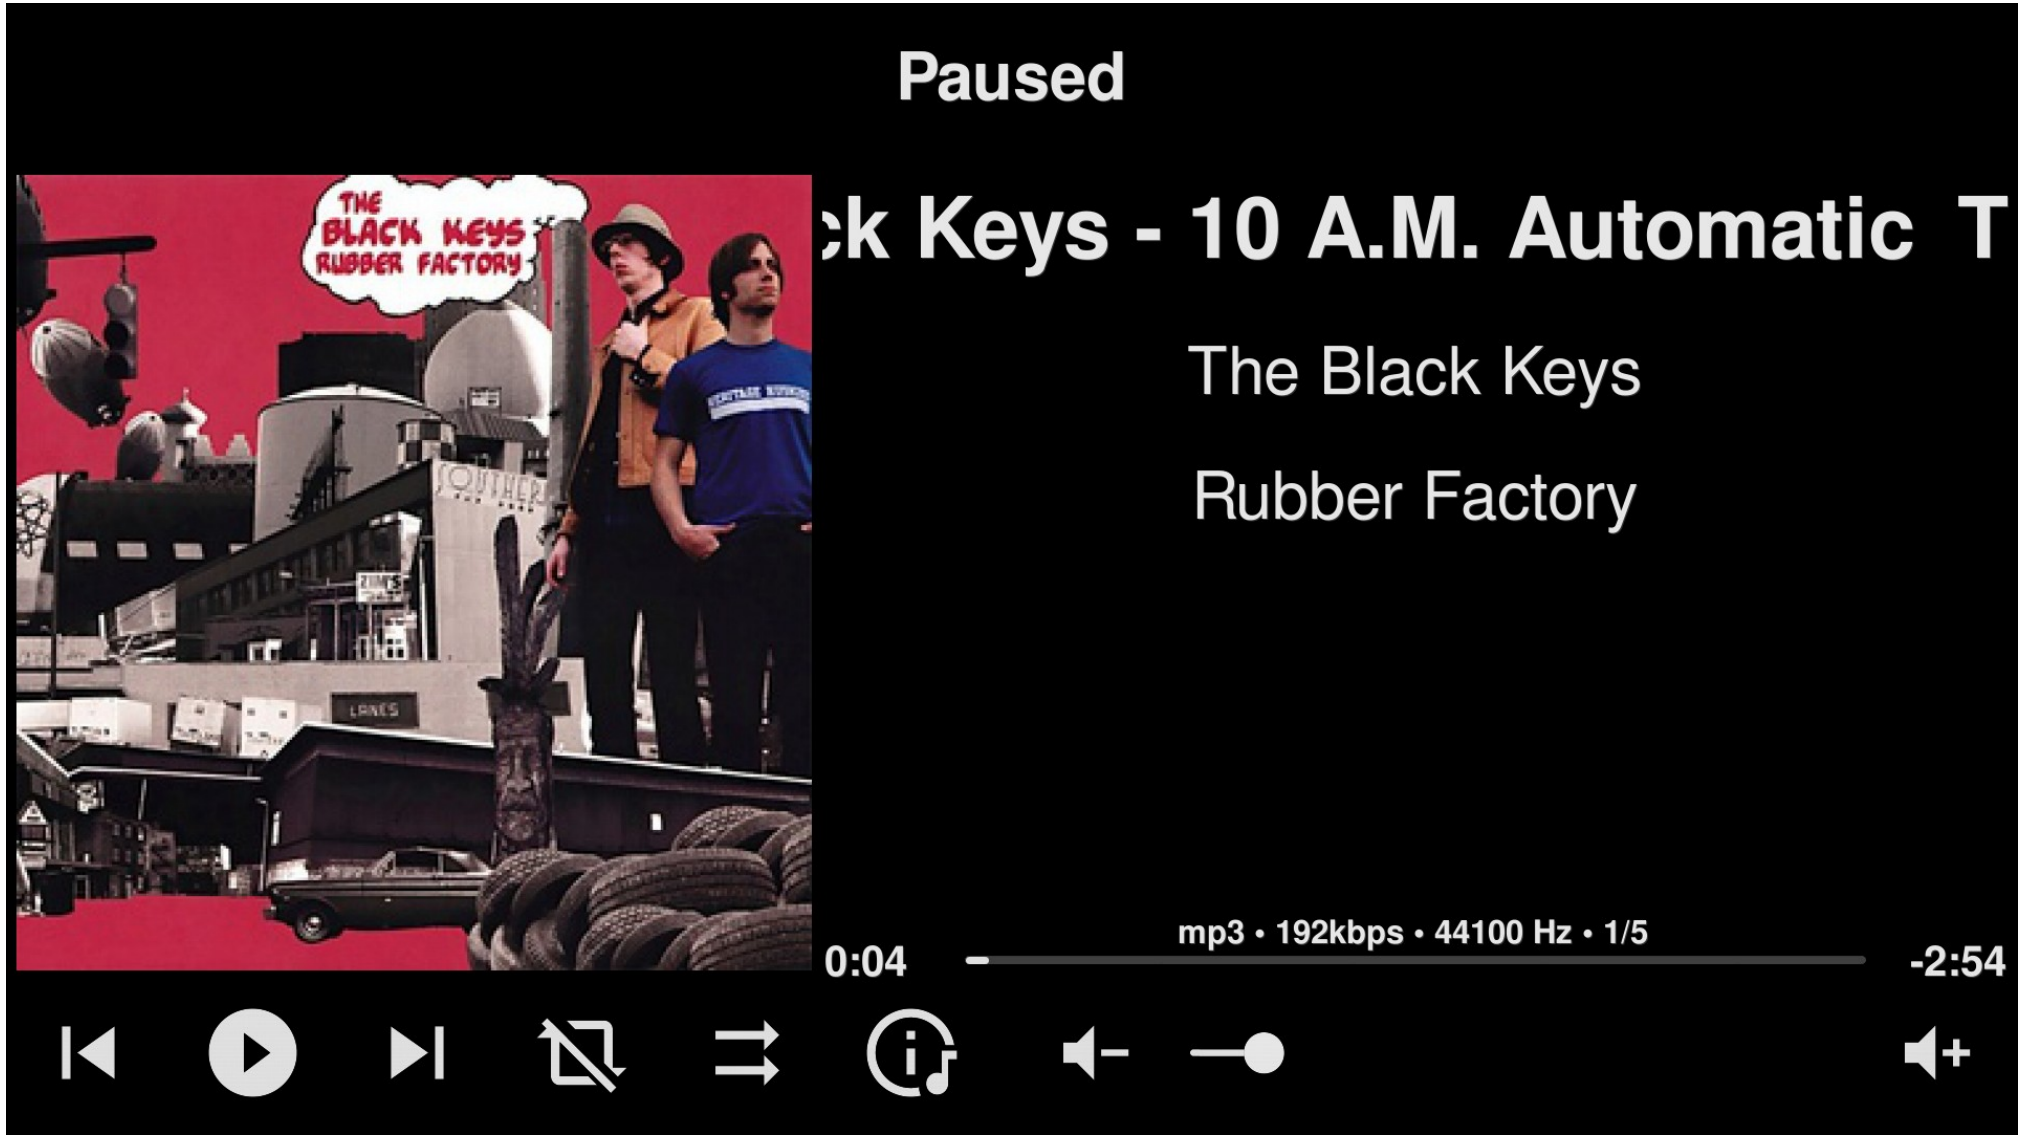

Screens of a piCorePlayer (JiveLite, 1920x1080) browsing Music Assistant 2.10.6 with the patched Squeezelite provider. The same steps as the Squeezebox Radio deck, captured on 2026-10-14 by a macro running inside JiveLite, including the menus a long press opens. The content shown is a moment in time: it follows the library, the presets and the Home Assistant labels.

Main Menu

Home screen. Settings holds the HA Extras entry when it is enabled for the device.

Now Playing

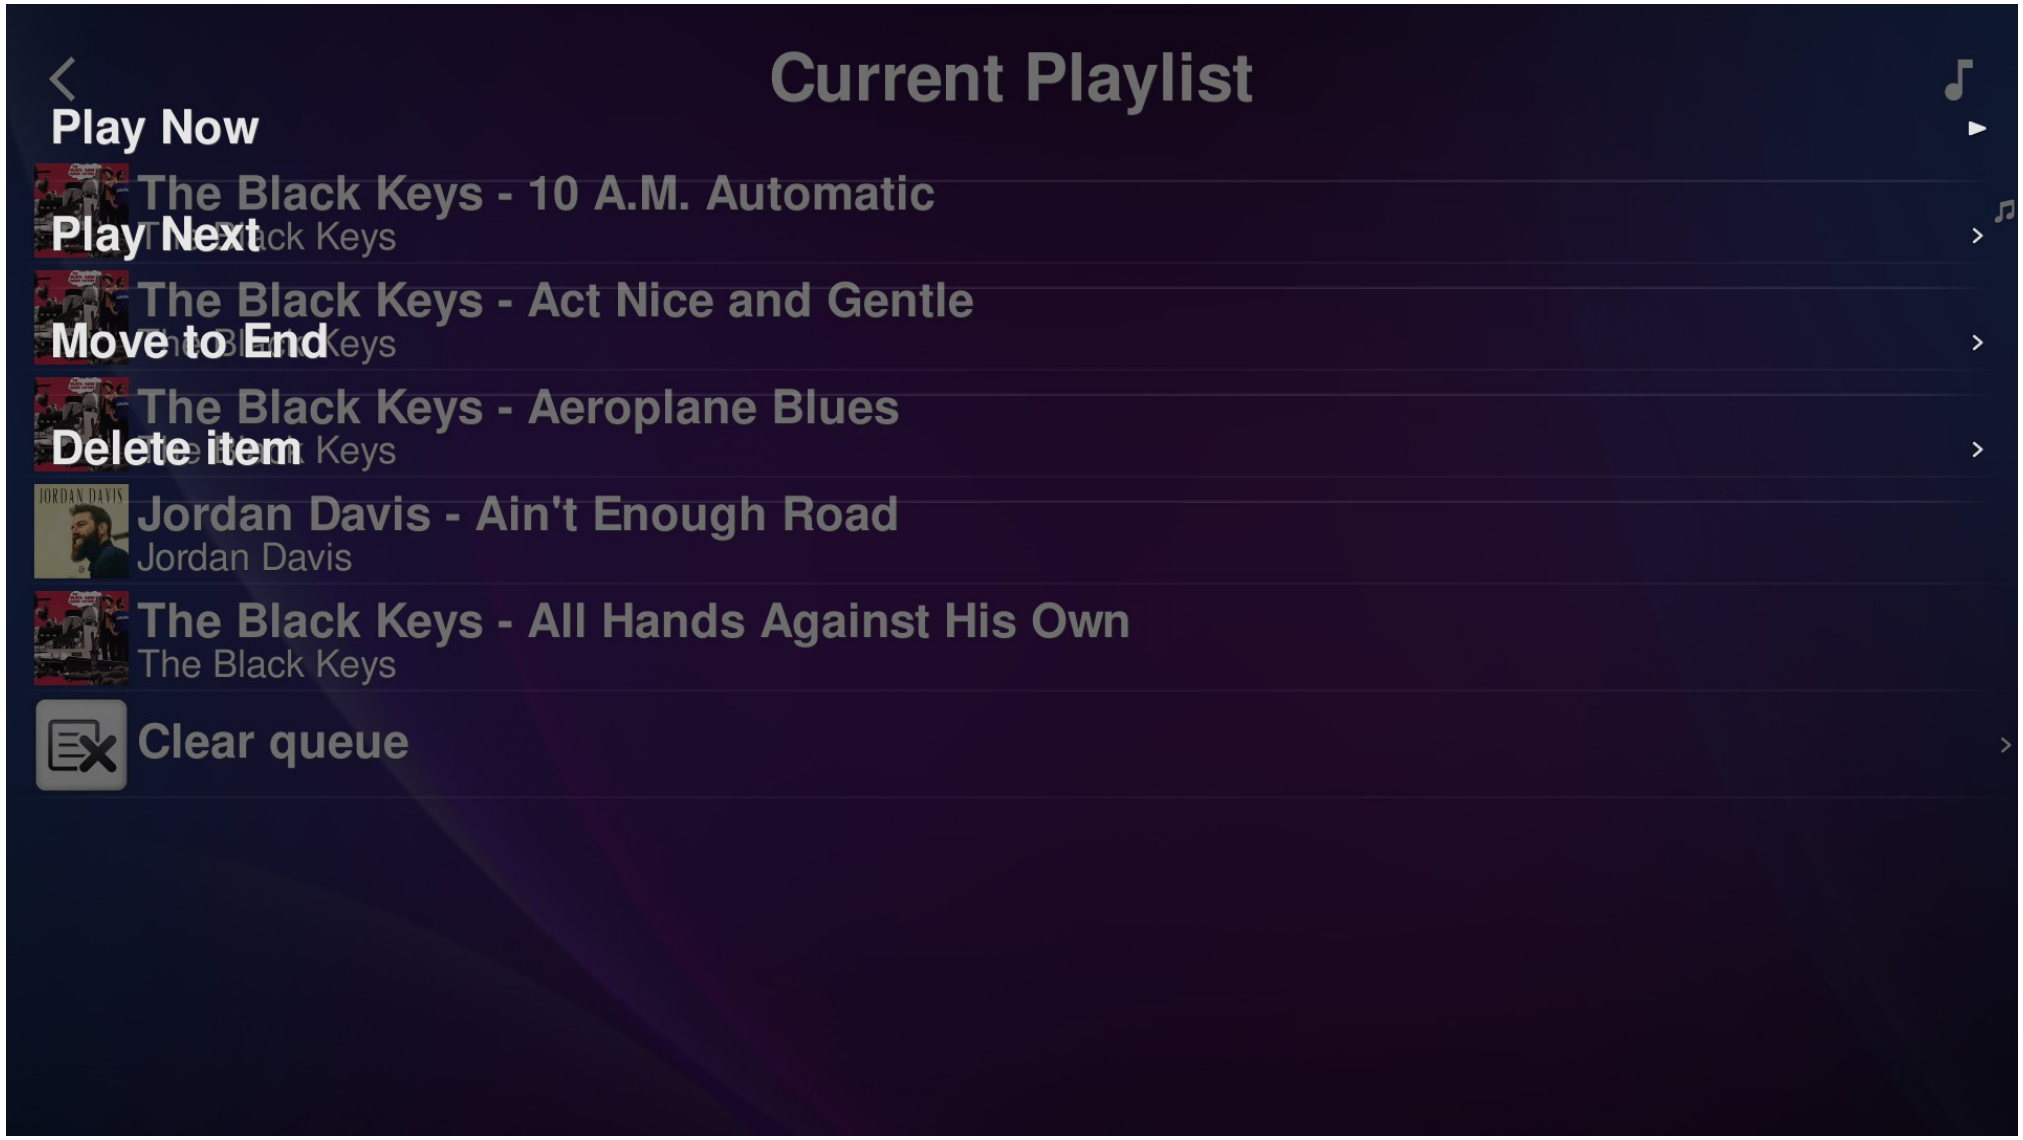

Shows the current track from the Music Assistant queue.

Queue (Current Playlist)

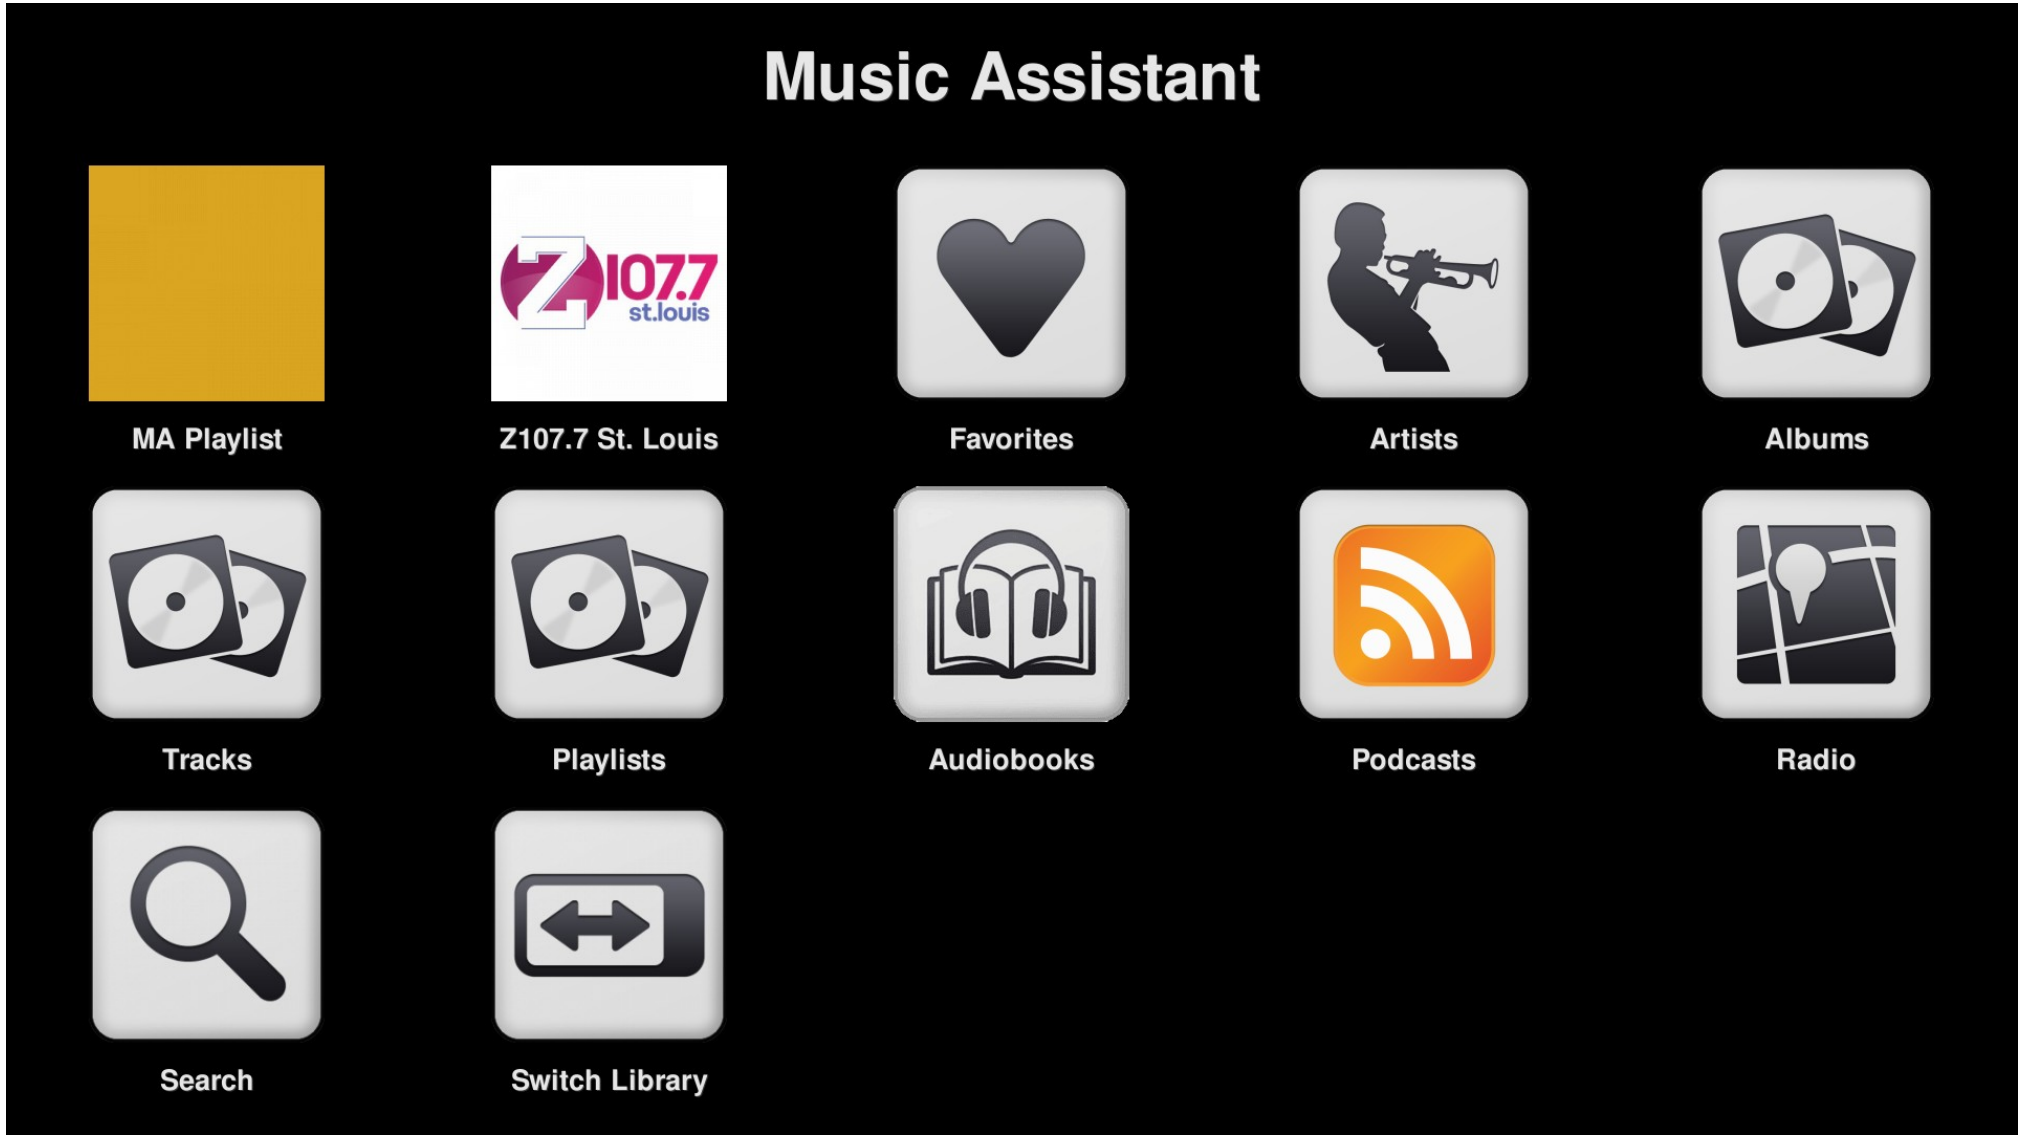

The player's queue as Music Assistant has it.

Long press on a queue item

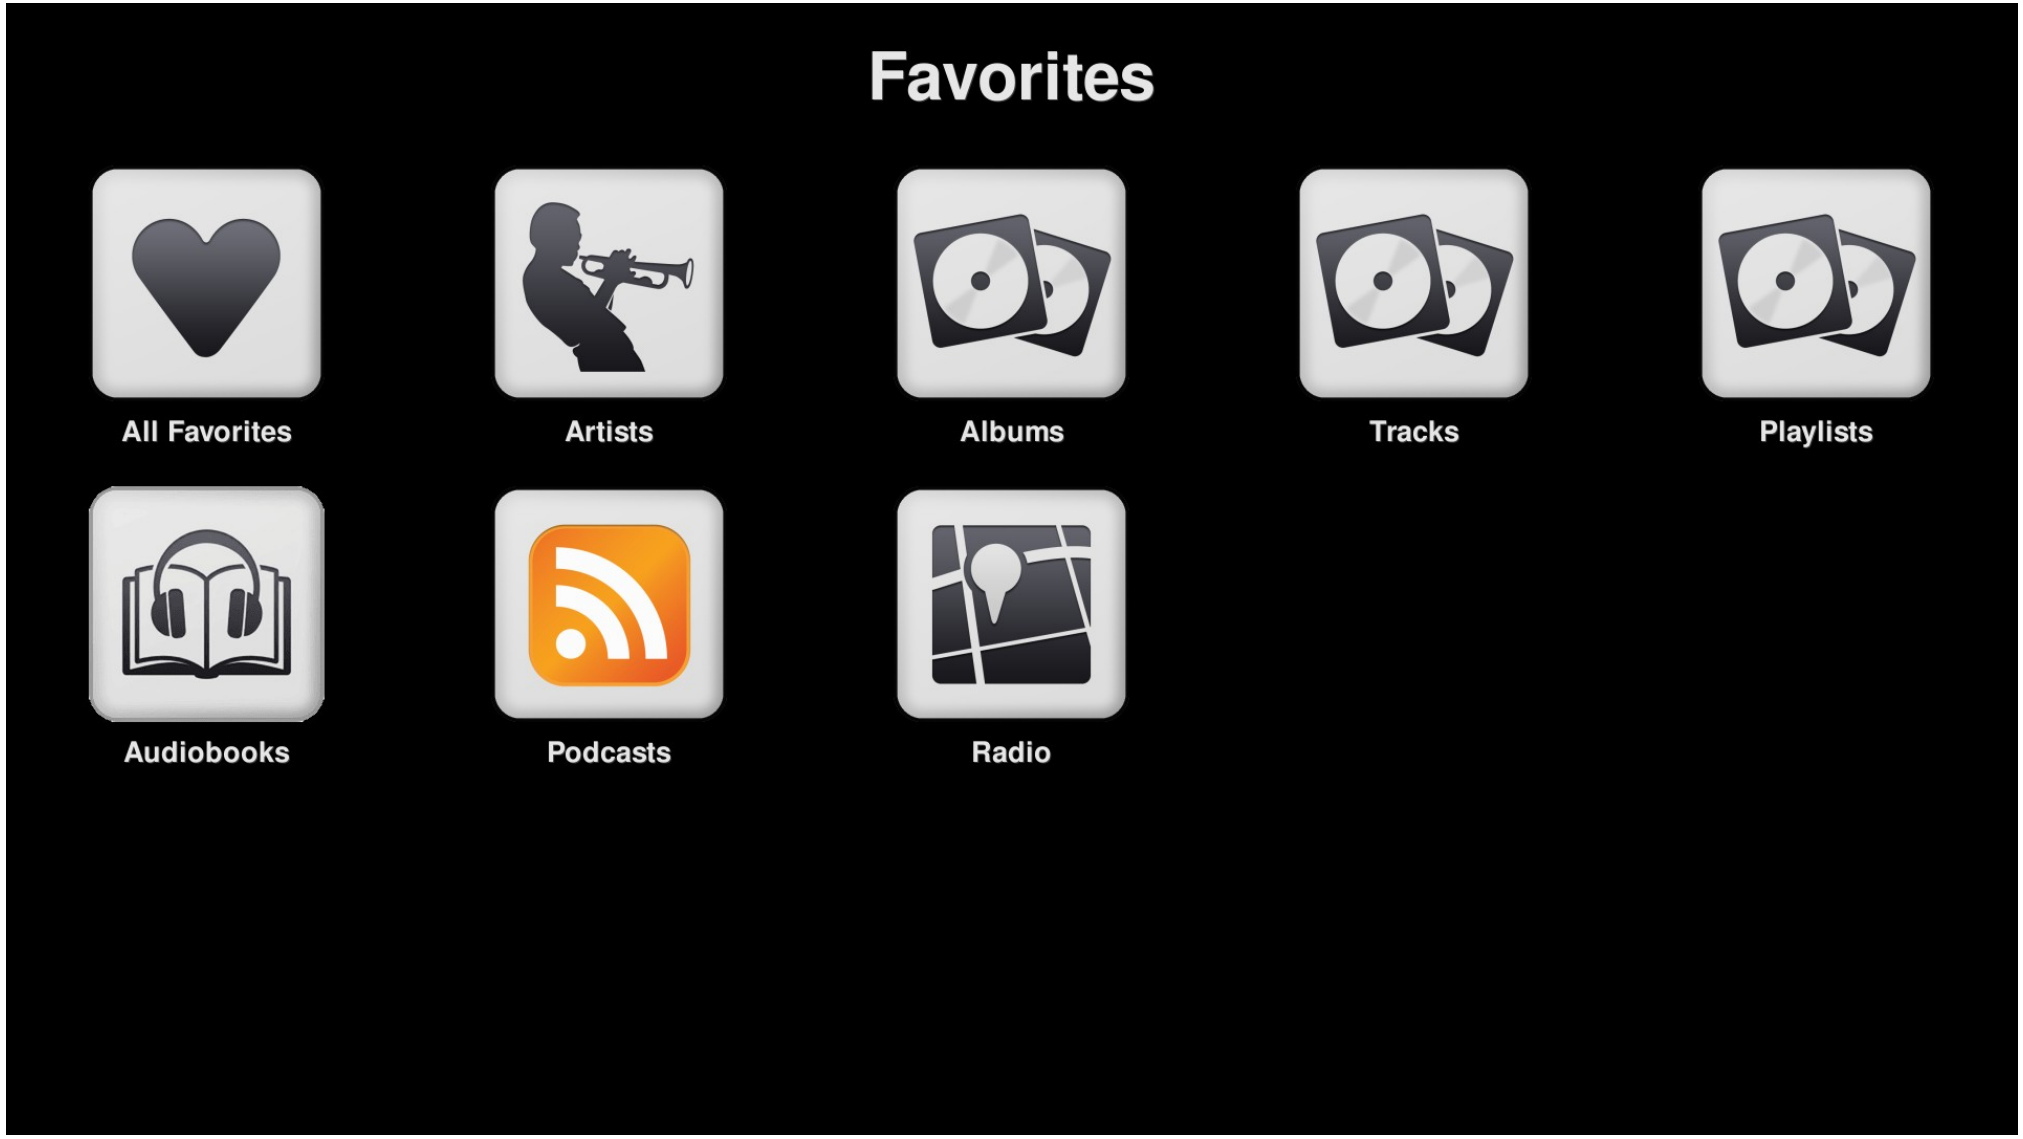

The menu of a queue item (not the one playing or the next): Play Now, Play Next, Move to End and Delete item, as in the Music Assistant app.

My Music

The preset entries come from the player's settings in Music Assistant (favorited playlists and radio stations).

My Music - Favorites

All Favorites, then one entry per type.

My Music - Artists

Artists

Alesso & Nate Smith

Avril Lavigne

Bailey Zimmerman

The Black Keys

Carly Pearce

Diplo

Dylan Scott

Jimmy Buffett

Jordan Davis

Josh Ross

The Kid LAROI

Luke Combs

Marcus King

Nate Smith

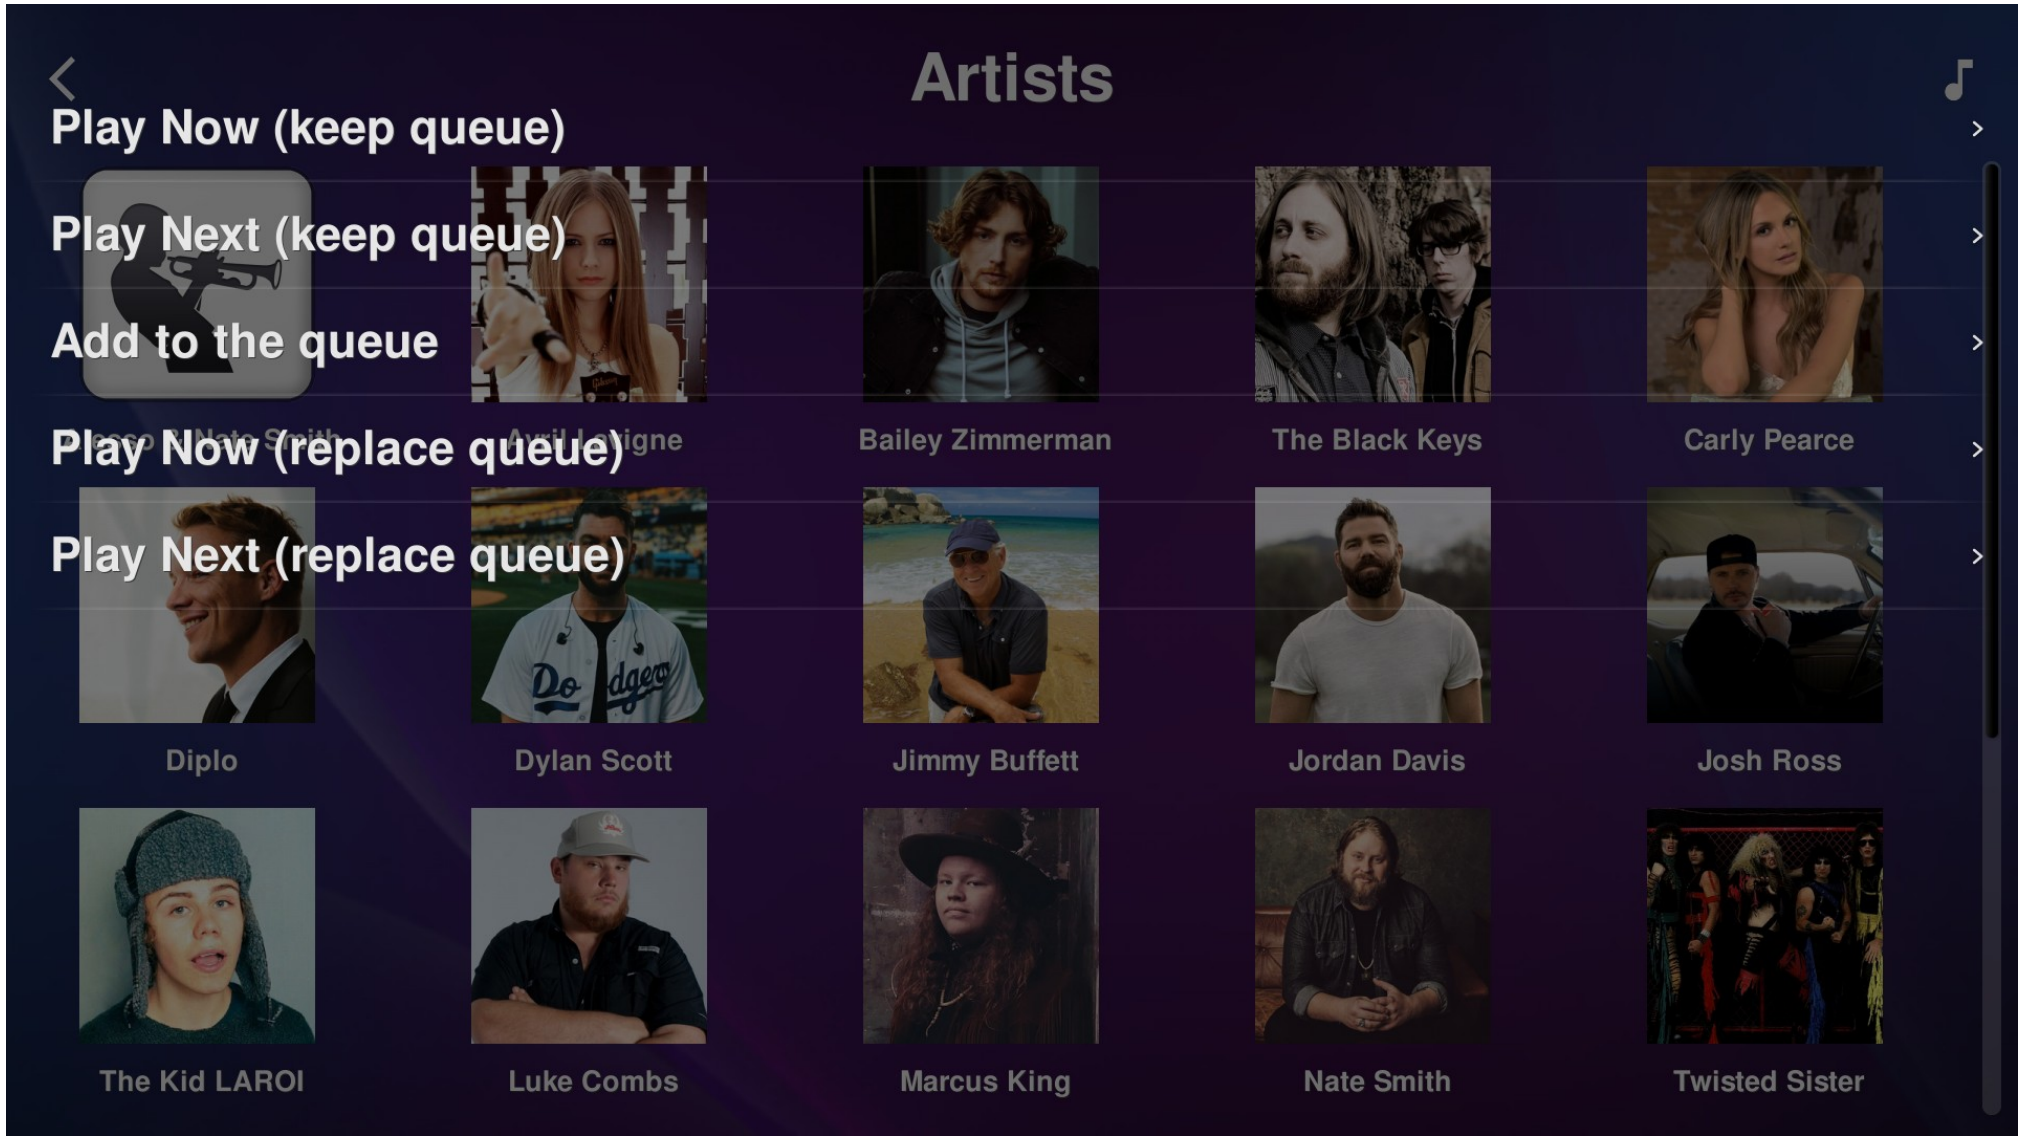

Twisted Sister

My Music - Artists - Avril Lavigne

An artist who is only on one track (a featured artist). The view lists albums, then tracks not on those albums, then matching radio stations.

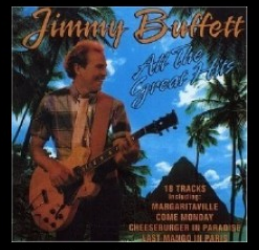

Long press on an artist

The menu of an artist: play everything by them, add it to the queue, play it next.

My Music - Albums

Albums

All the Great Hits
Jimmy Buffett

The Best Of The Atlantic Ye
Twisted Sister

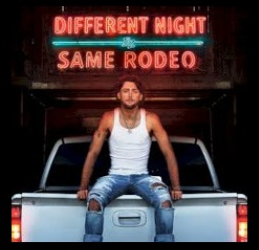

California Gold

Country Radio

Long press on a radio station

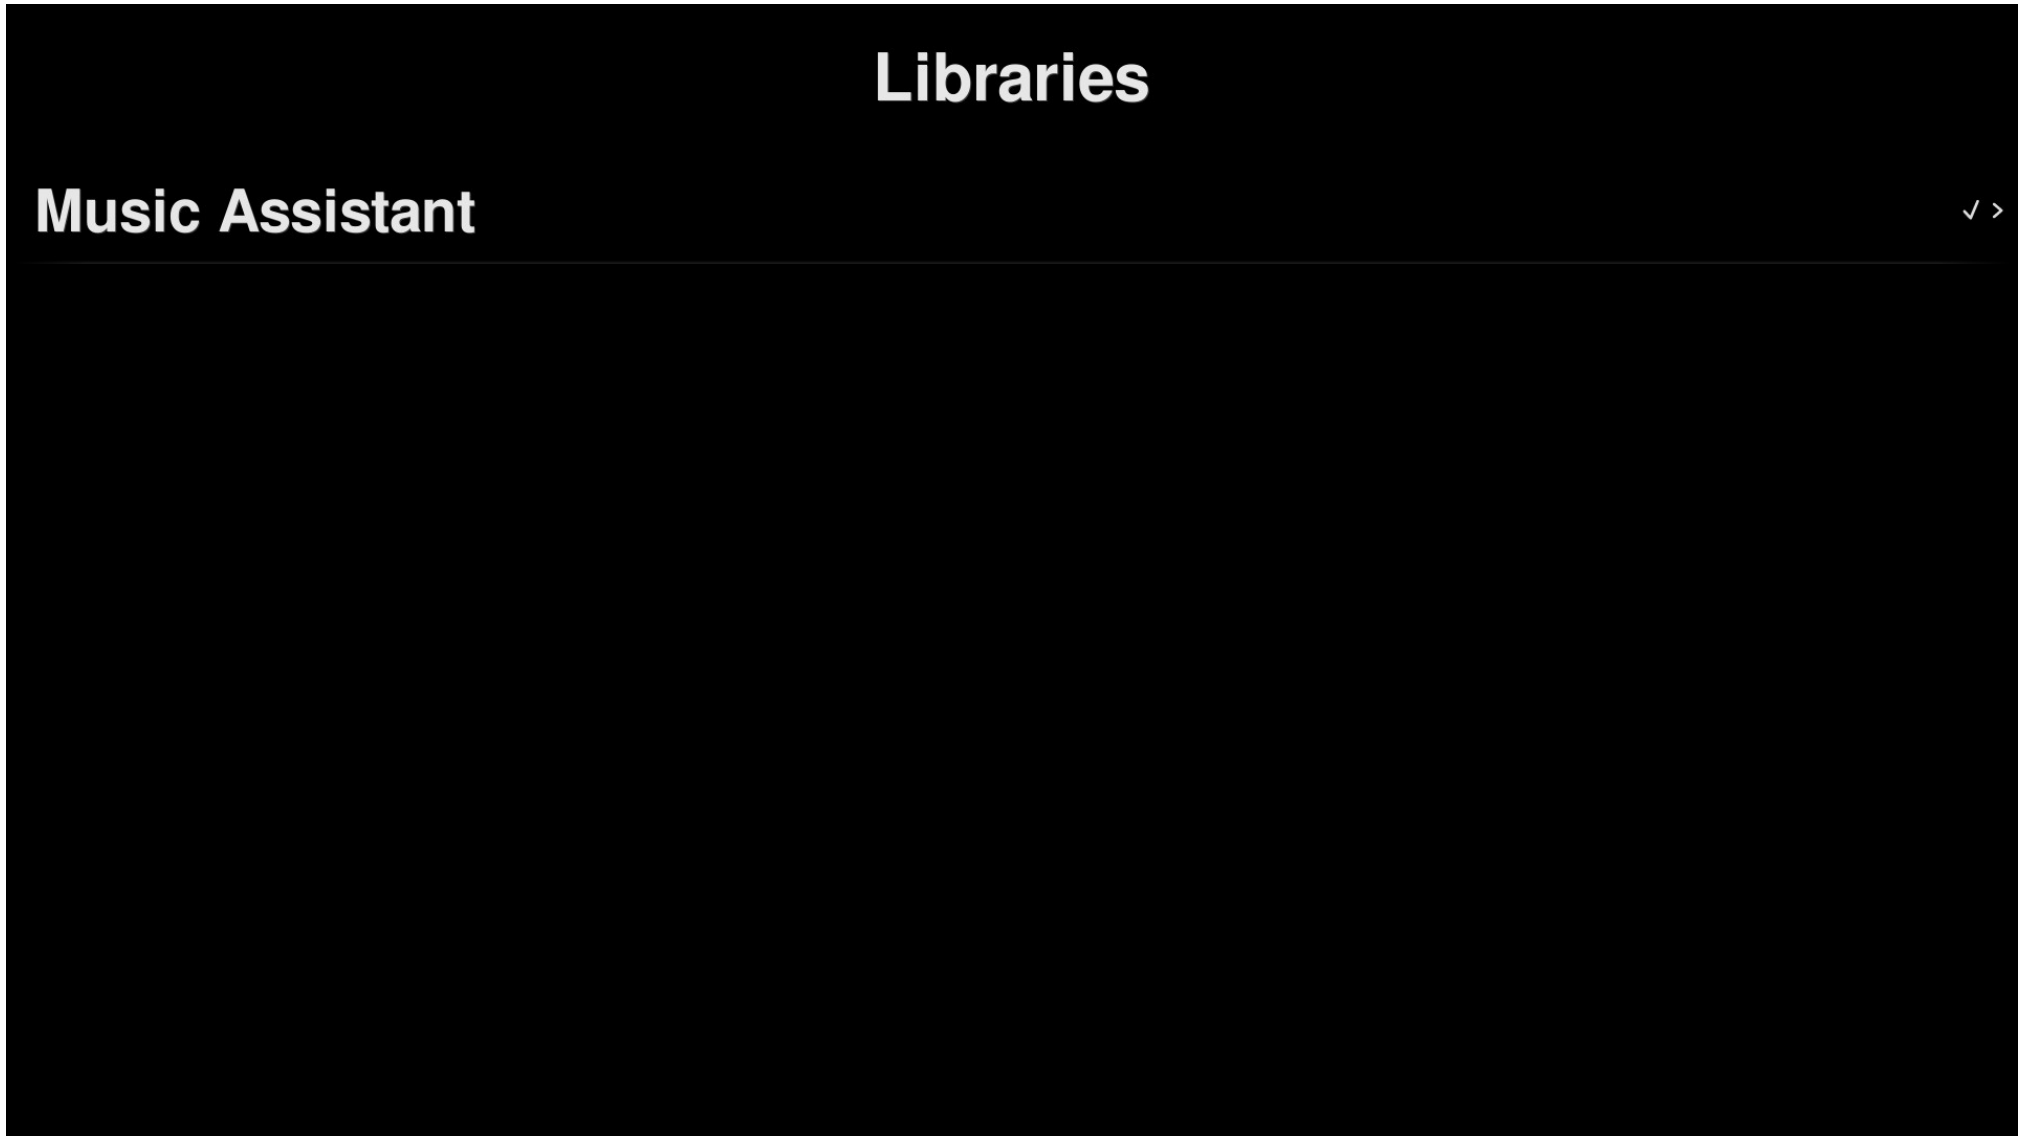

The menu of a radio station.

My Music - Search

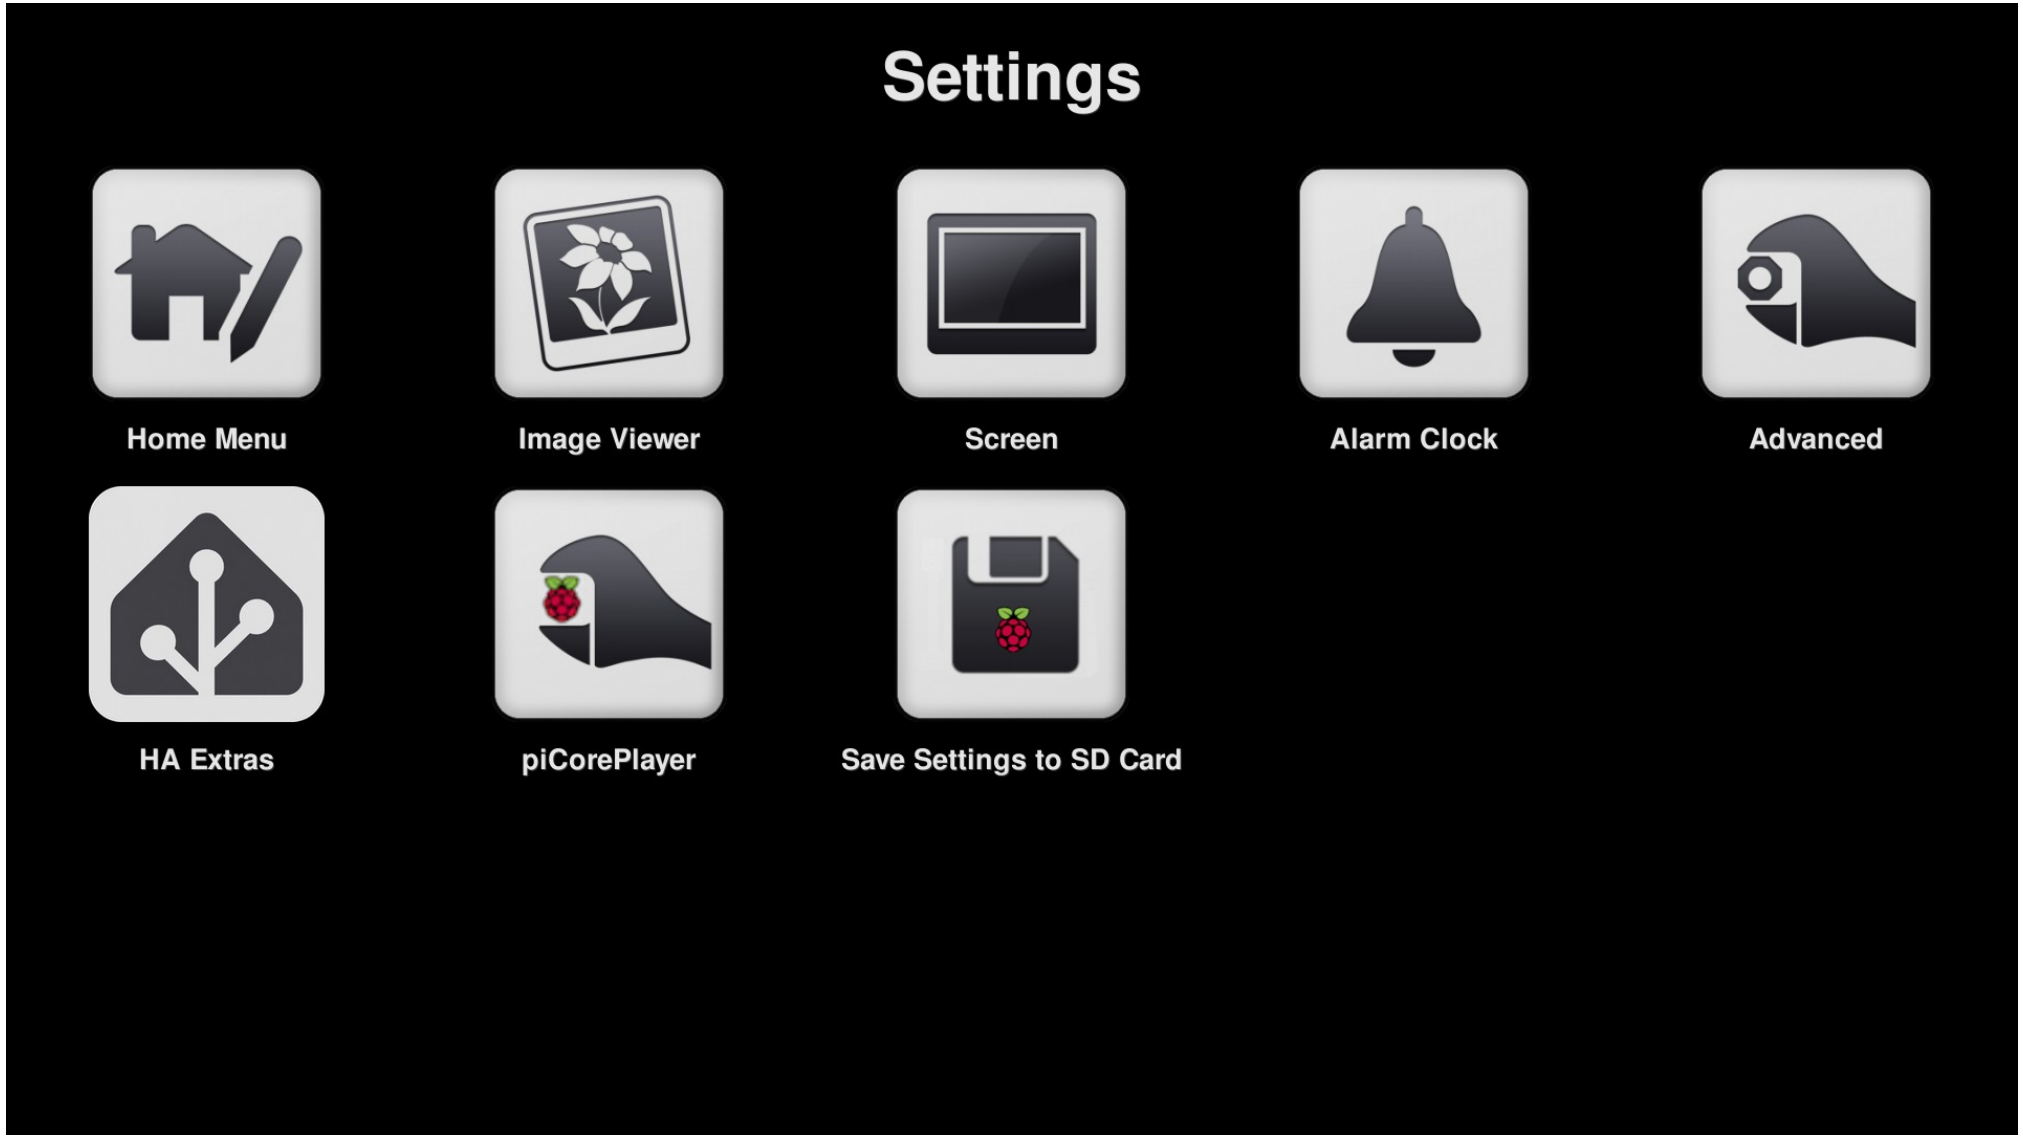

The search text entry.

My Music - Switch Library

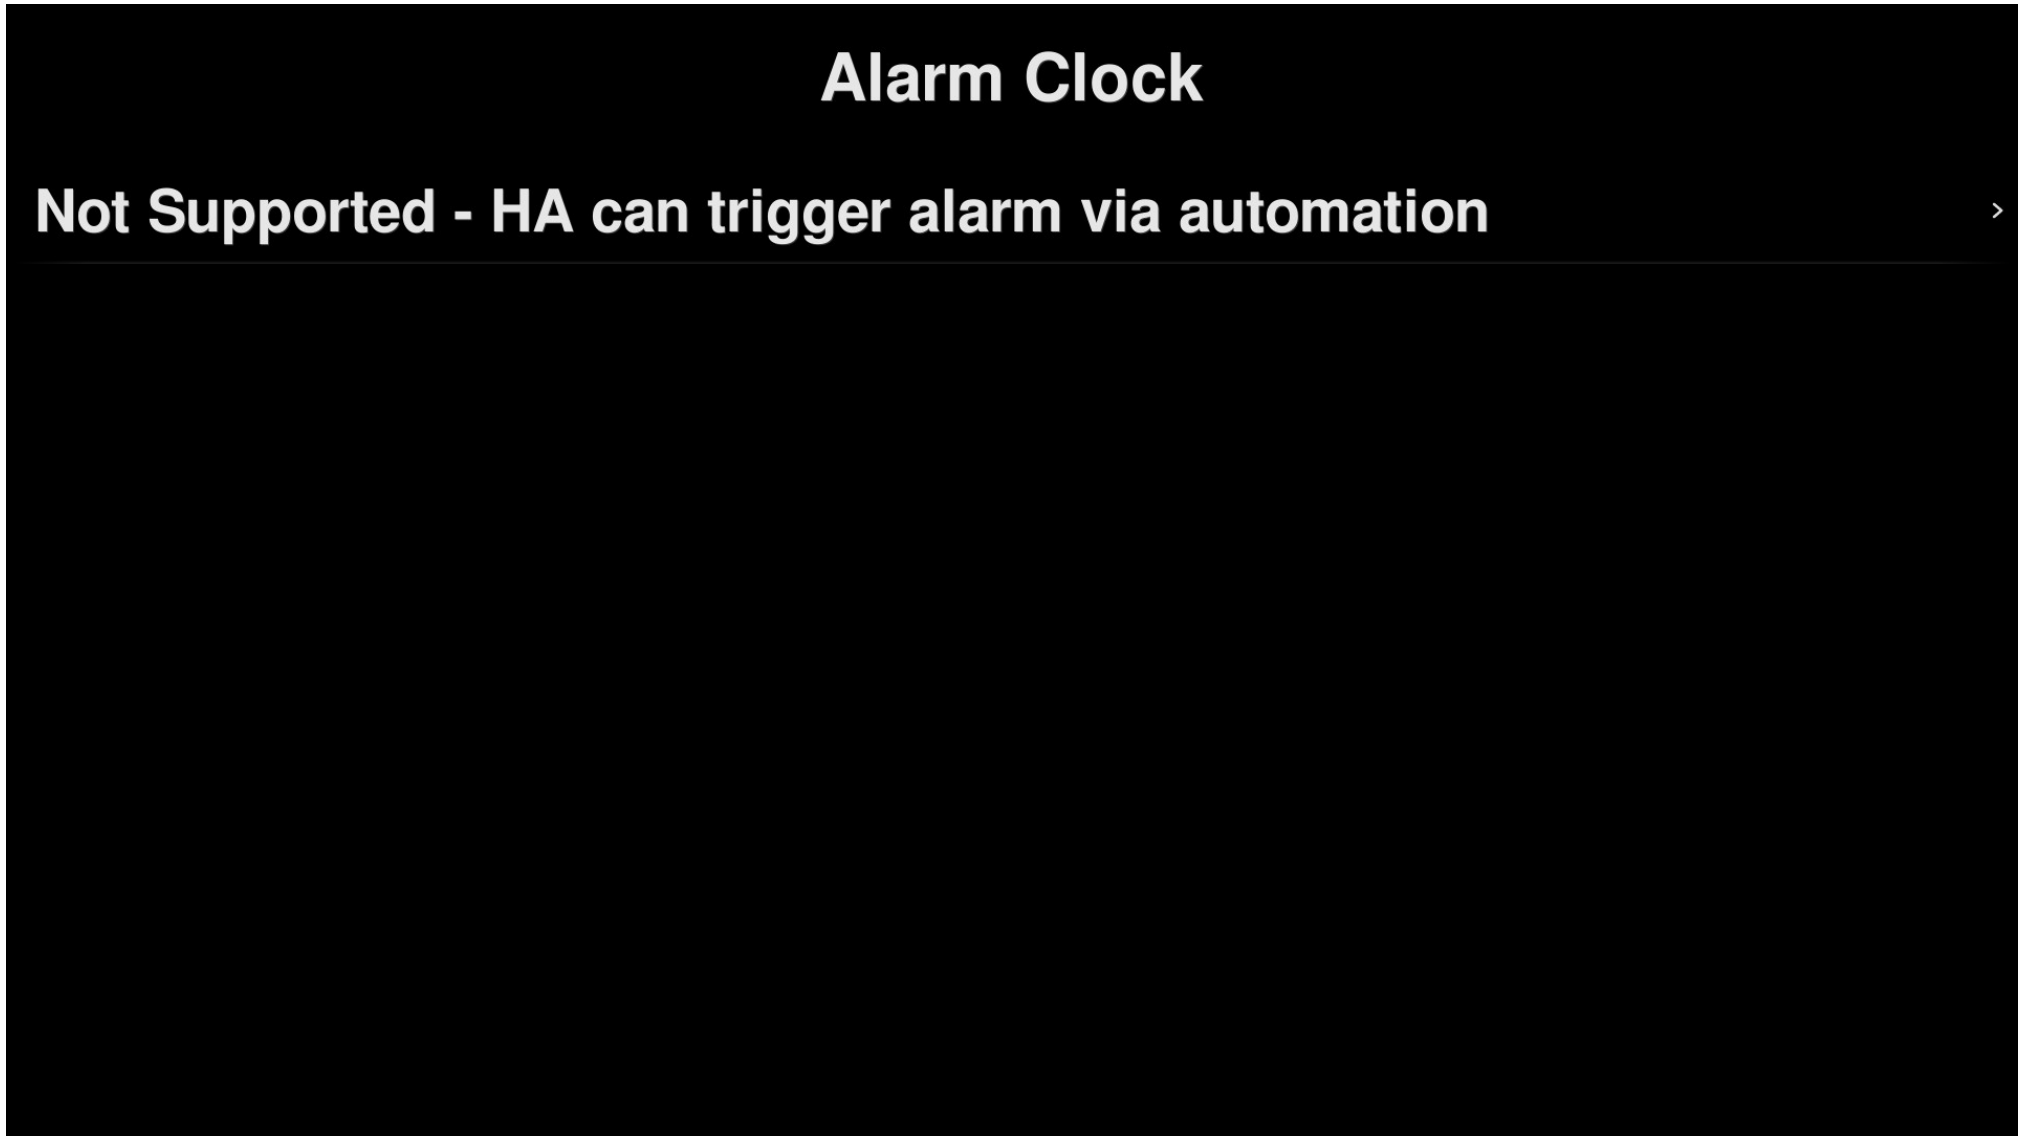

Settings

Includes Alarm Clock (says alarms are not supported) and HA Extras.

Settings - Alarm Clock

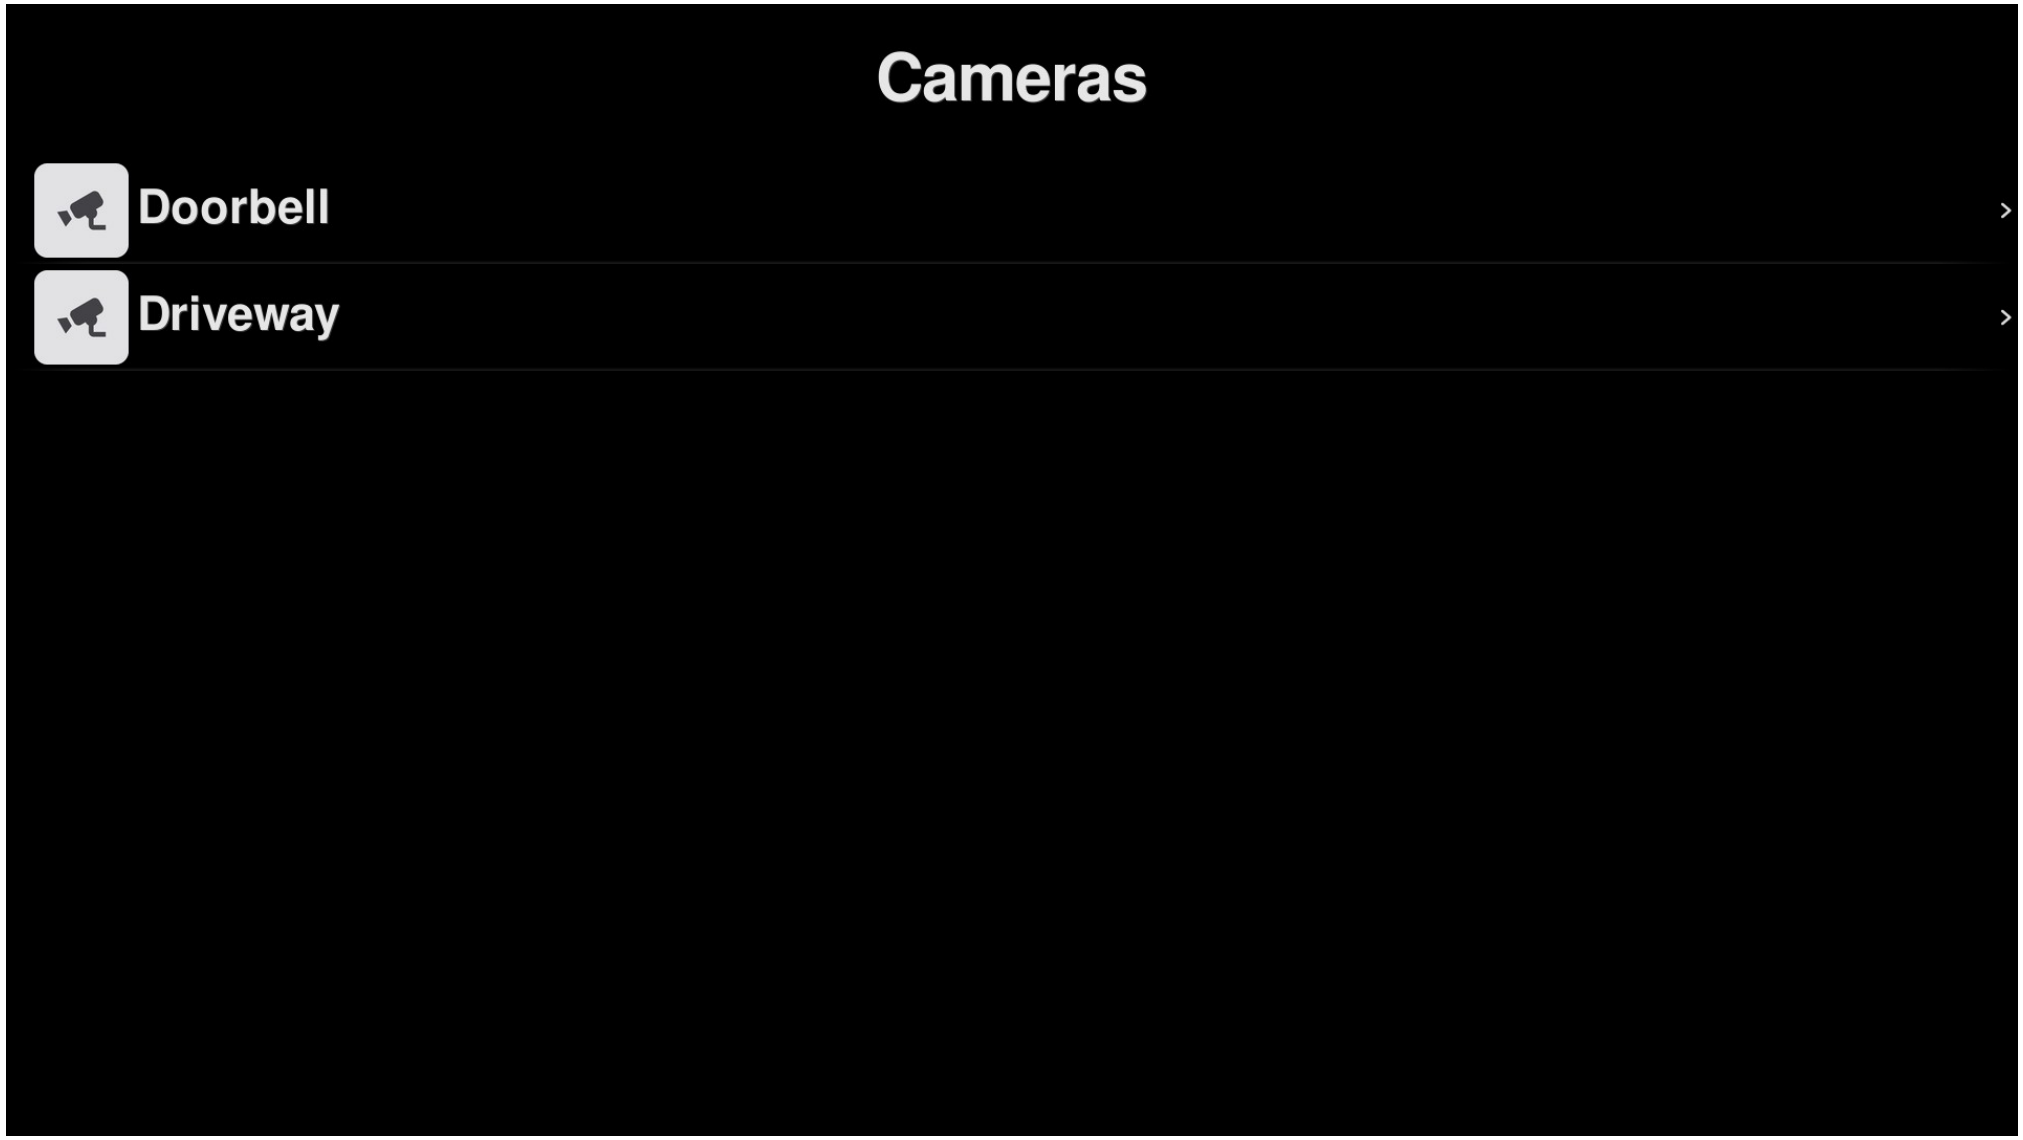

Alarms are not supported; Home Assistant can trigger them with an automation.

Settings - HA Extras

Experimental. Needs the device setting 'Expose HA Entities to Device (HA Extras)' and the HA Extras label on the entities.

Settings - HA Extras - Cameras

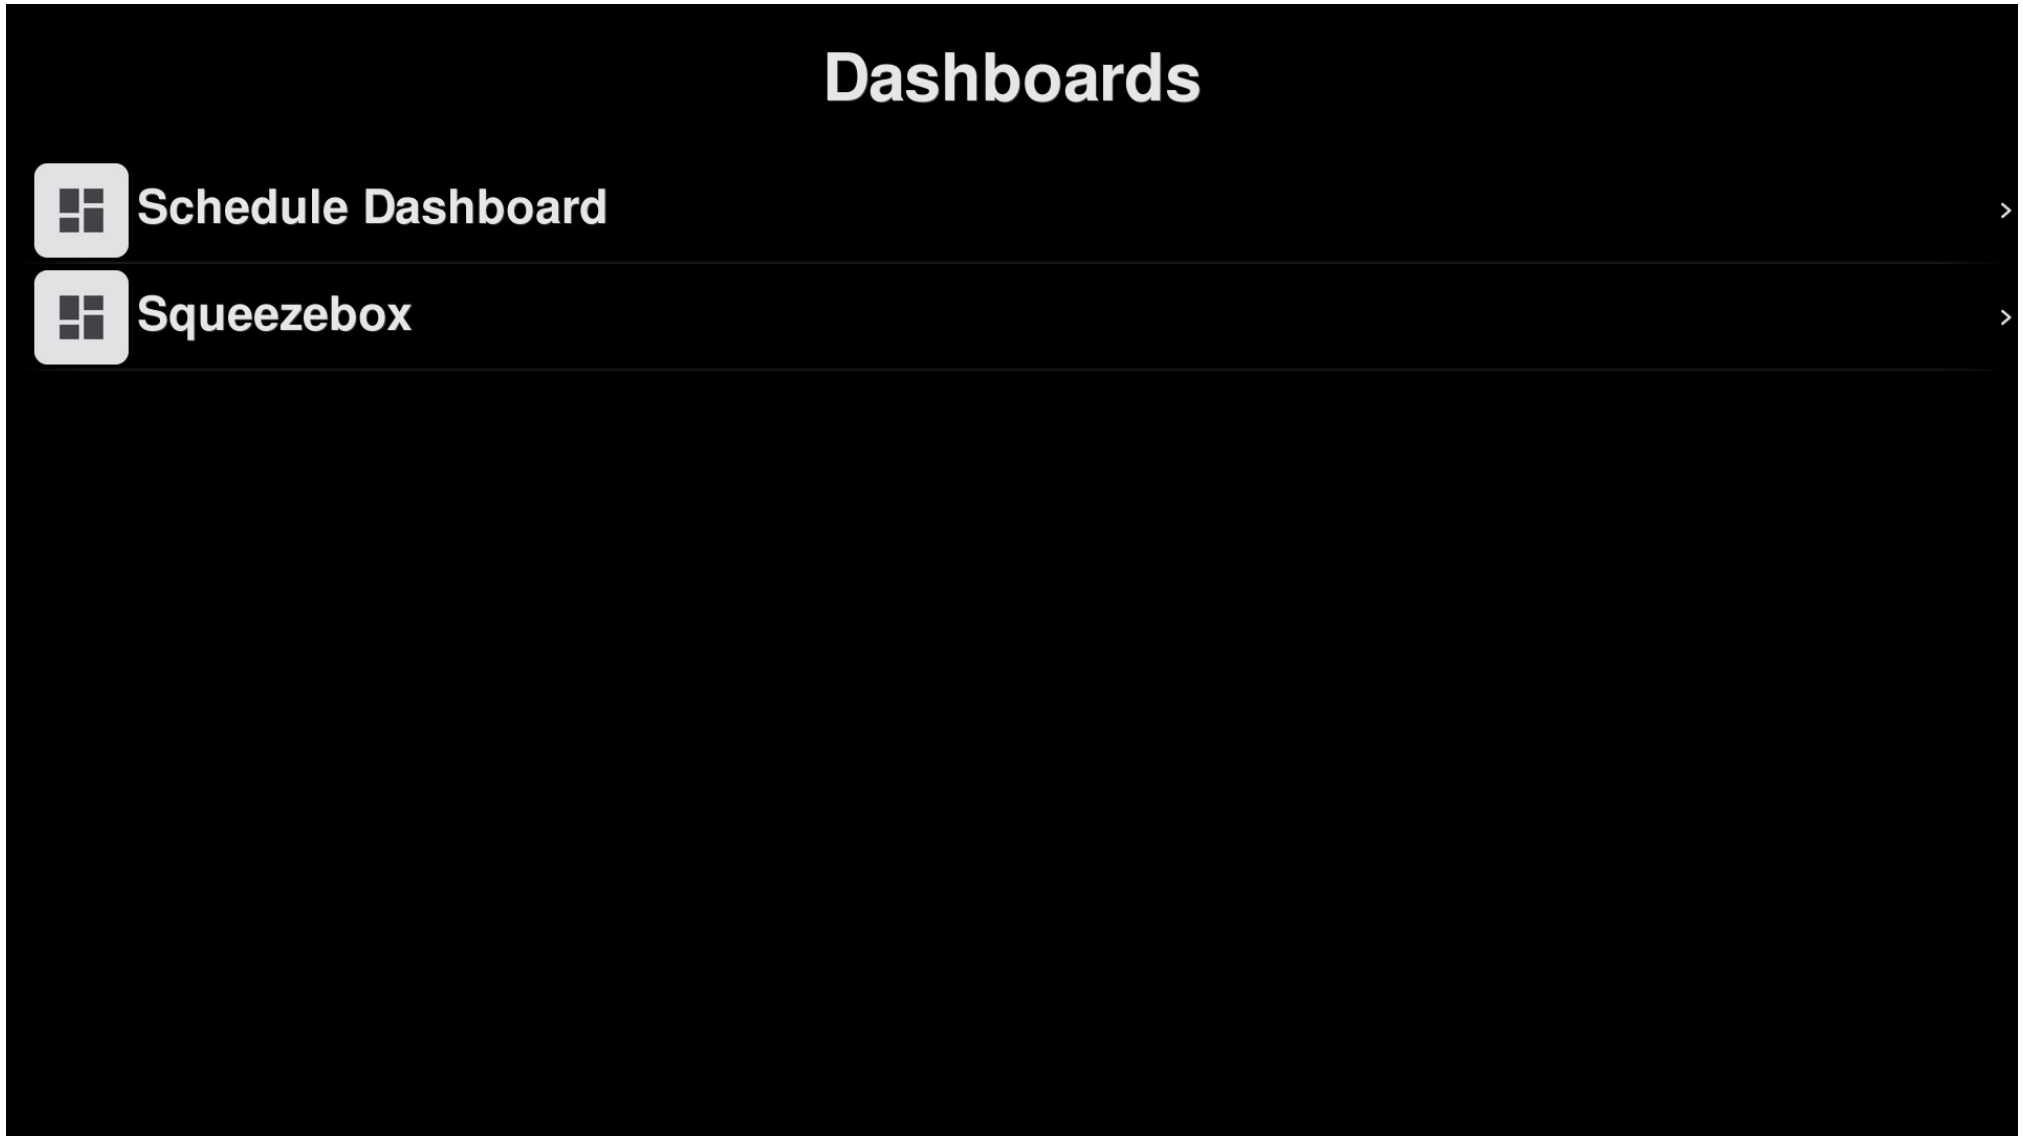

Choosing a camera shows a snapshot full screen in the Image Viewer, refreshed about every 10 seconds.

Settings - HA Extras - Cameras - a camera

The camera view in the Image Viewer. It fetches a new snapshot about every 10 seconds until a key is pressed.

Settings - HA Extras - Dashboards

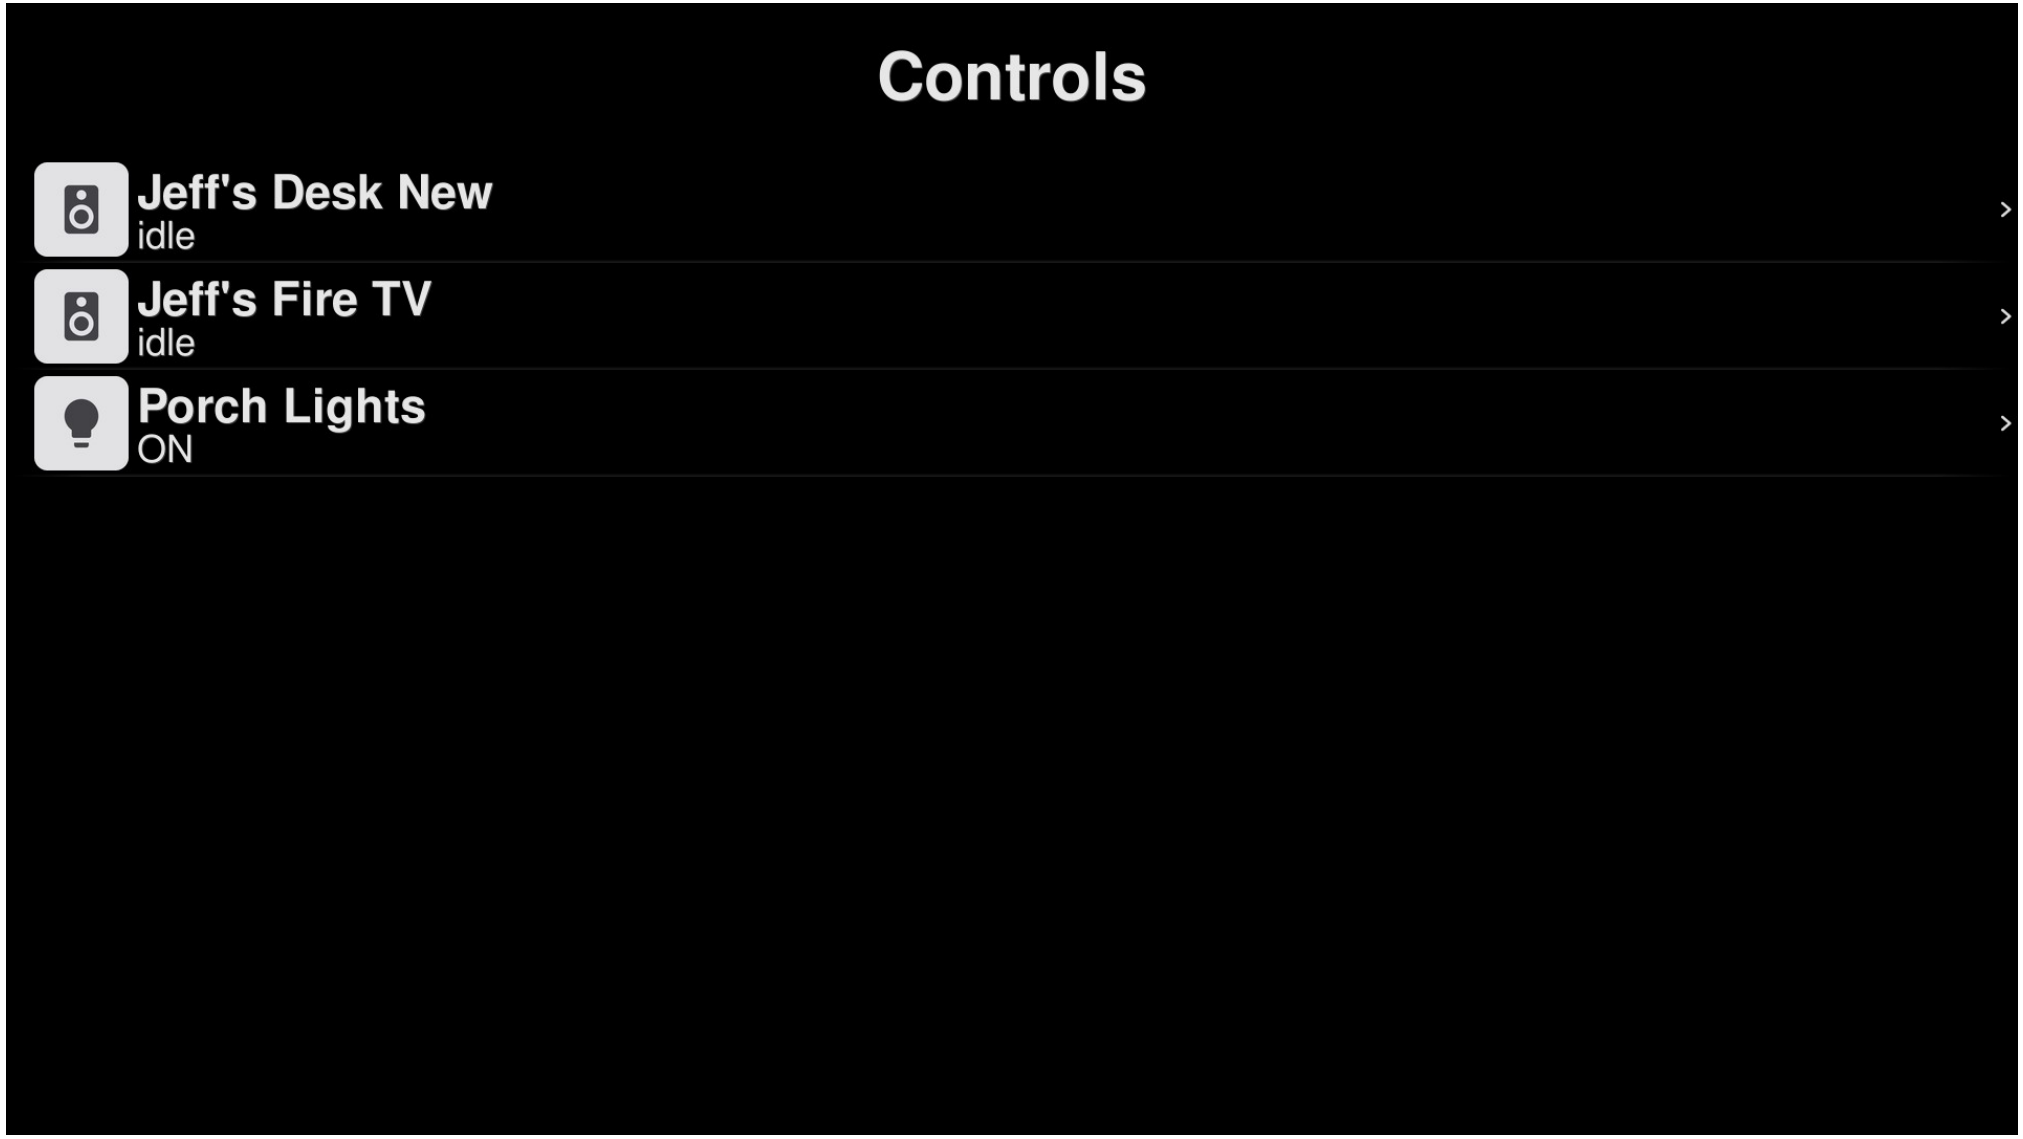

Entities whose state is the address of a picture of a dashboard. Shown full screen like the cameras.

Settings - HA Extras - Dashboards - a dashboard

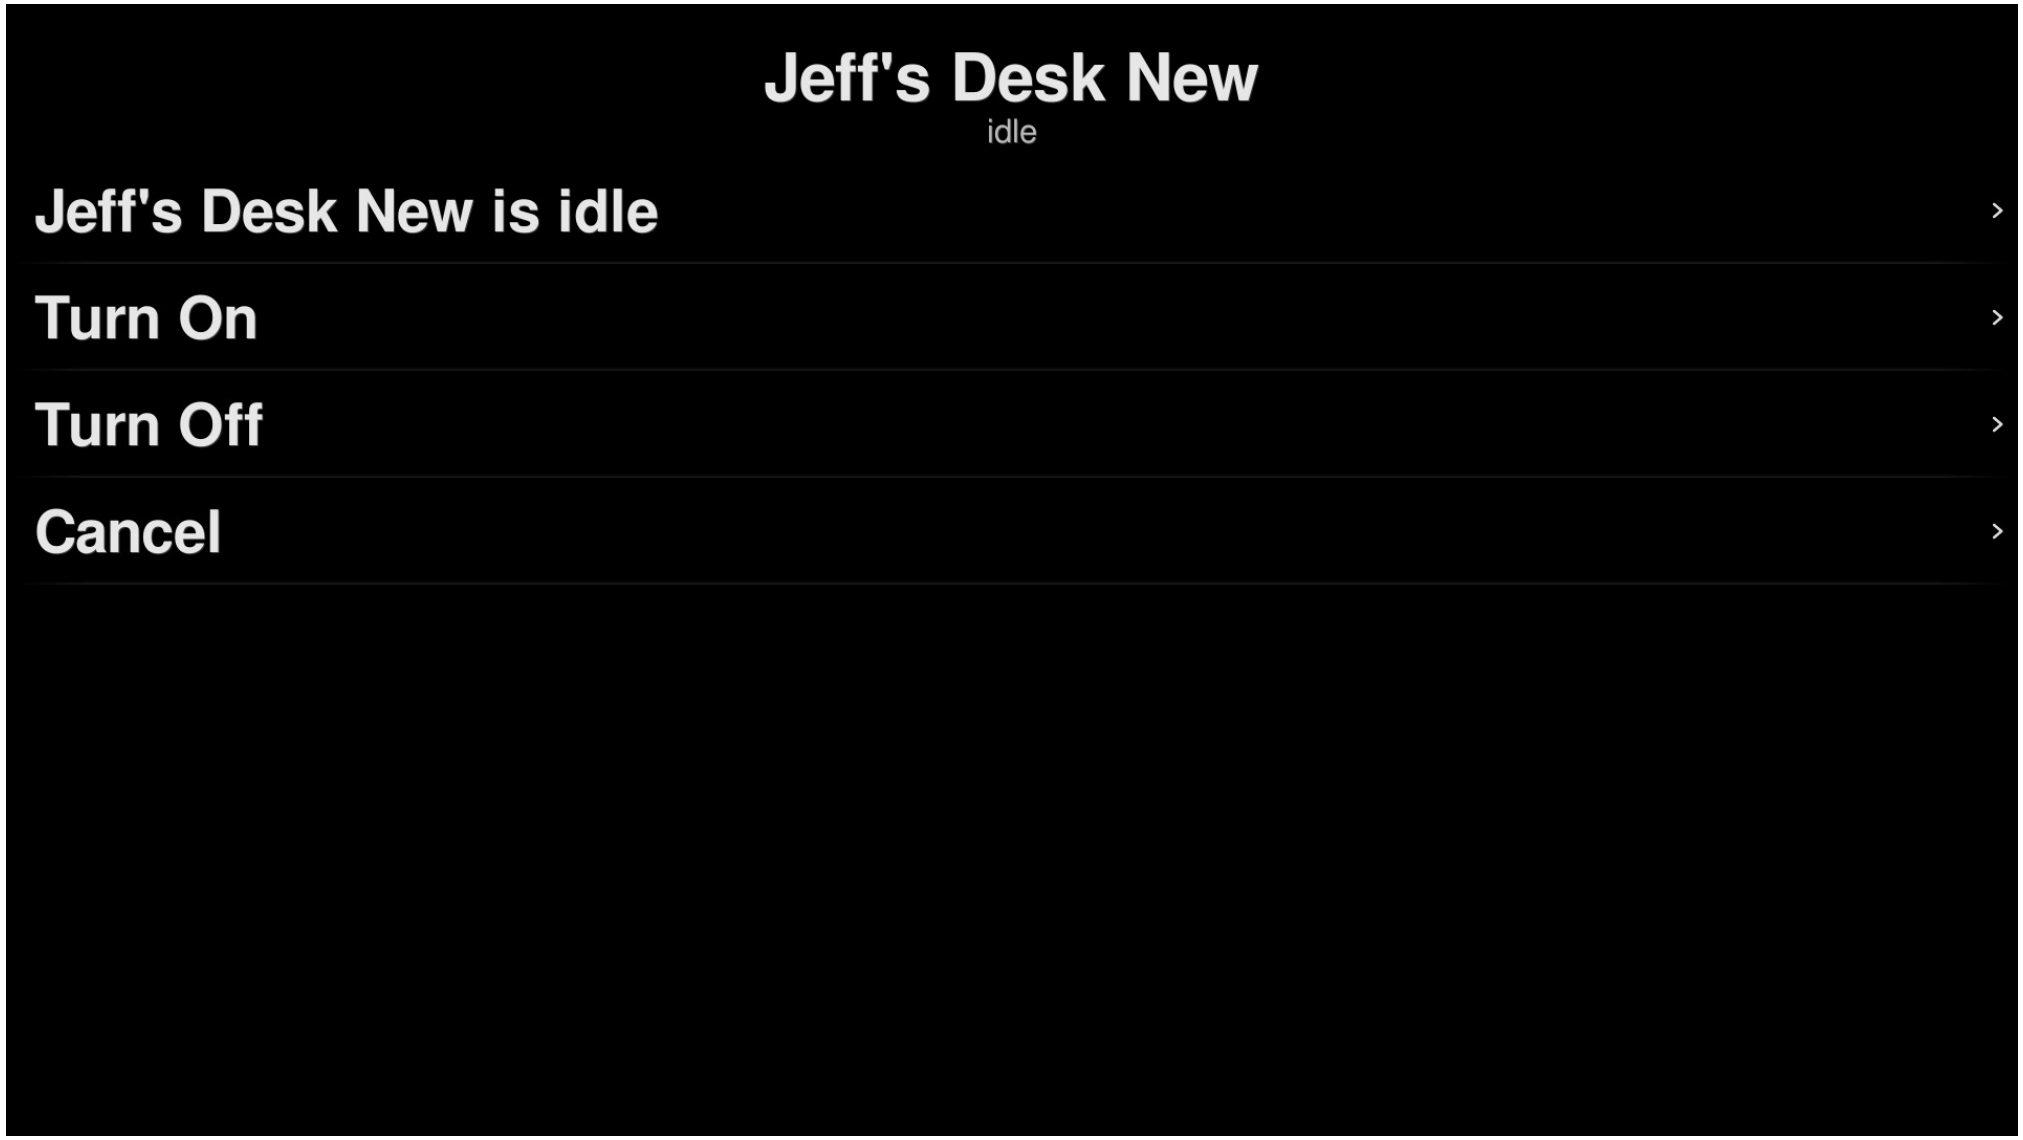

A dashboard in the Image Viewer. A screenshot service renders the picture; it is fetched again about every 10 seconds.

Settings - HA Extras - Controls

Choosing a row opens Turn On / Turn Off / Cancel.

Settings - HA Extras - Controls - a control

Choosing a control opens its menu: the current state, Turn On, Turn Off and Cancel.

Settings - HA Extras - Scenes and Scripts

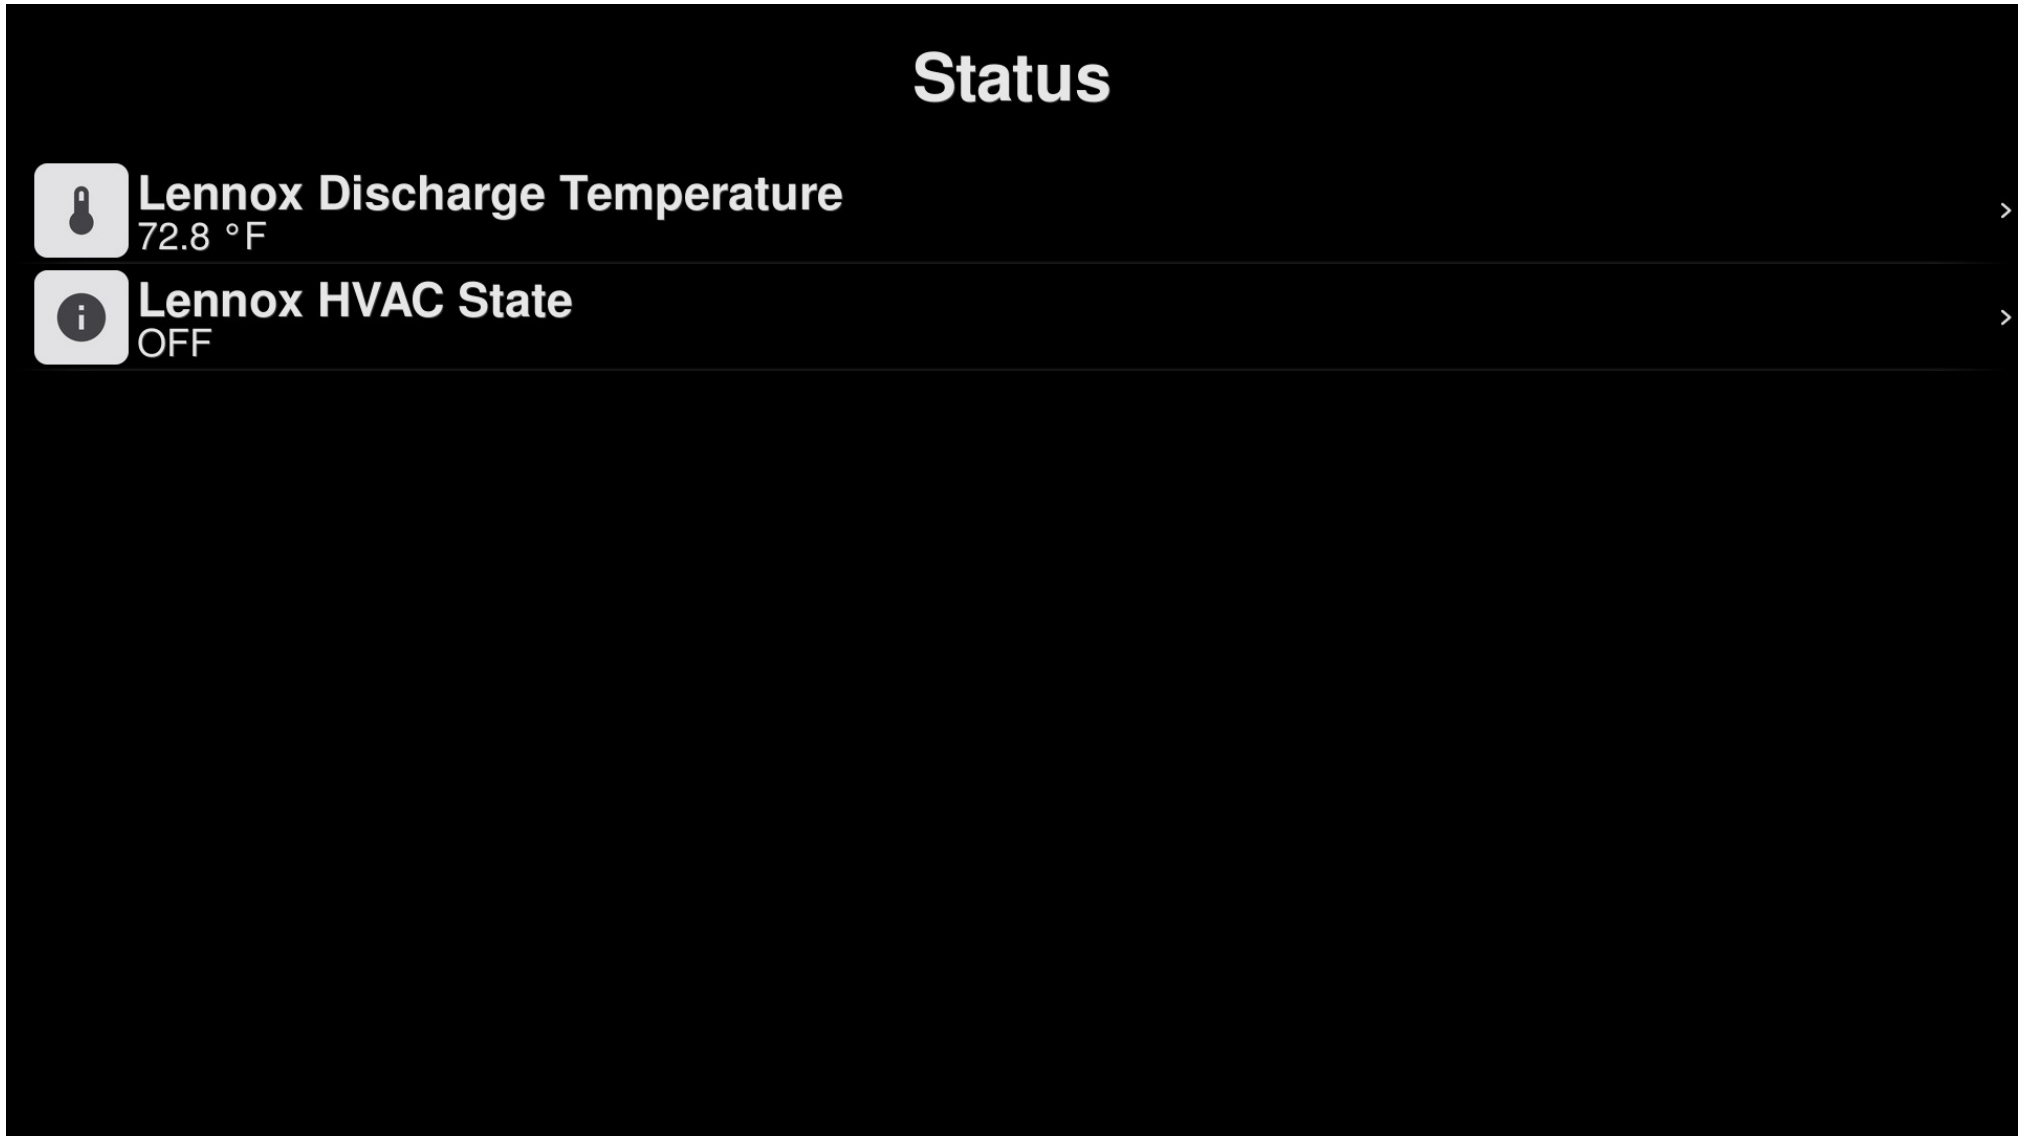

Choosing one opens Run / Cancel.

Settings - HA Extras - Scenes and Scripts - a scene

Choosing a scene opens Run and Cancel.

Settings - HA Extras - Status

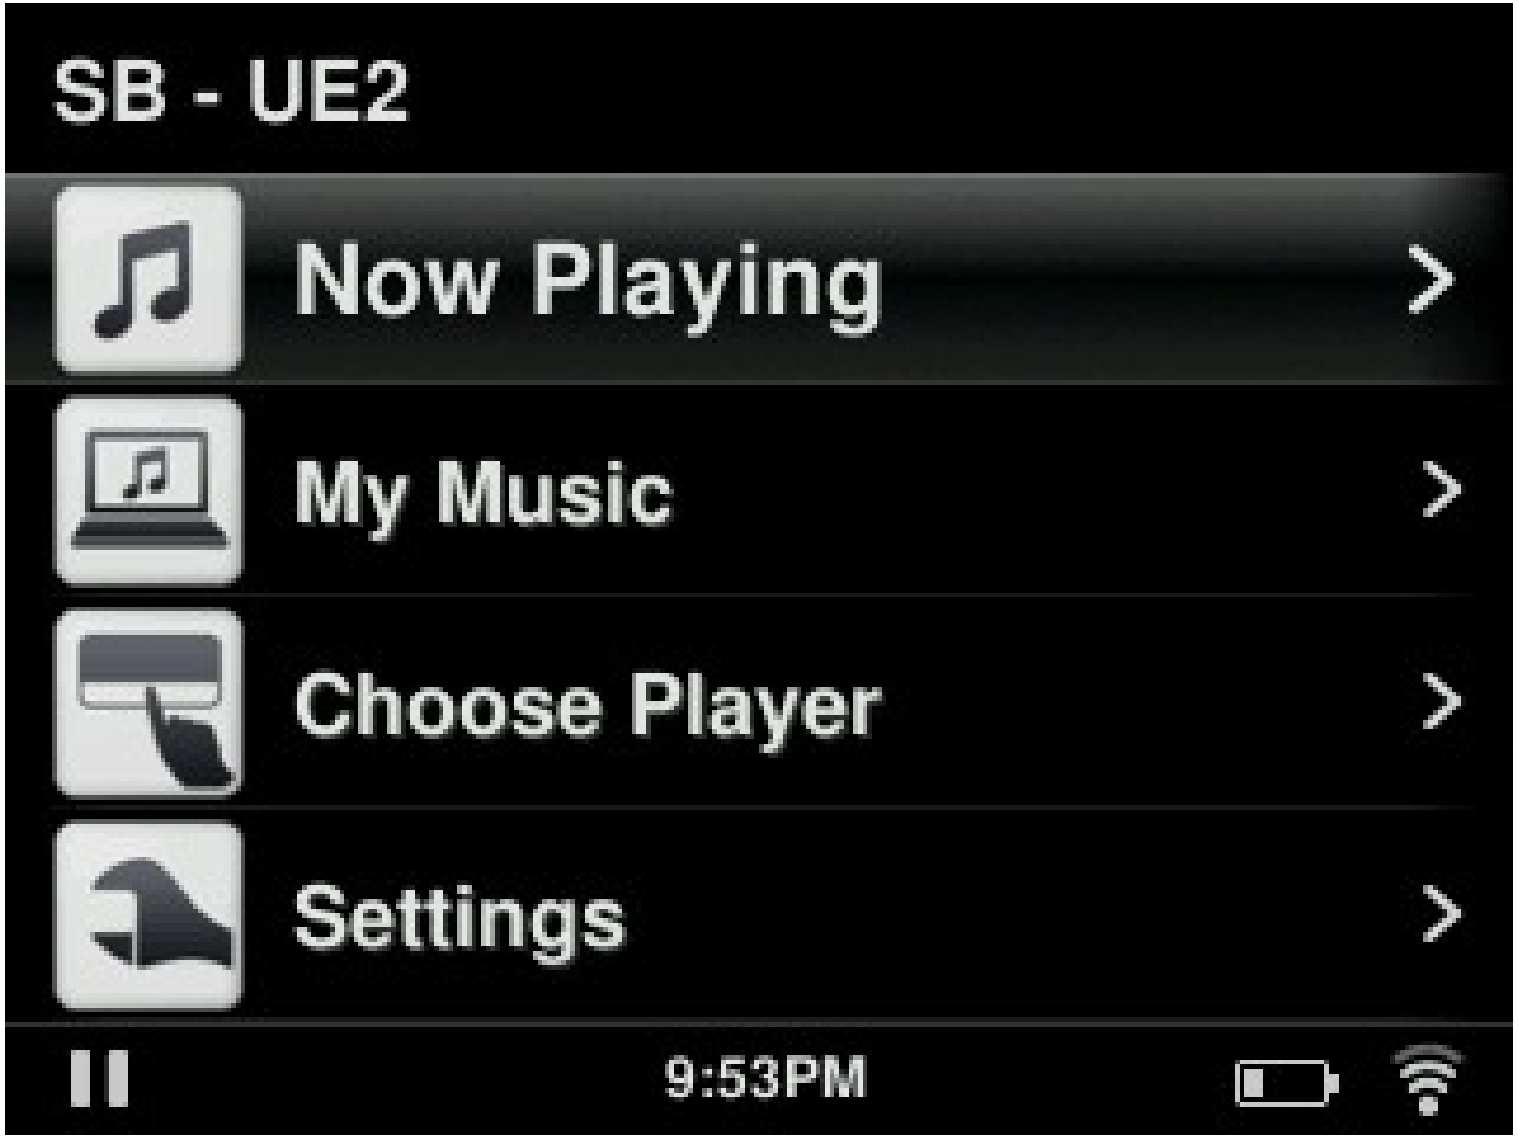

Read-only values.

MA-SqueezeliteBrowse: menu walkthrough

Squeezebox Radio (UE2)

Screens of a Logitech Squeezebox Radio (SqueezePlay, 320x240) browsing Music Assistant 2.10.6 with the patched Squeezelite provider. The same steps as the piCorePlayer deck, captured on 2026-10-14 by a macro running inside the Radio's own software, including the menus a long press opens. The content shown is a moment in time: it follows the library, the presets and the Home Assistant labels.

Main Menu

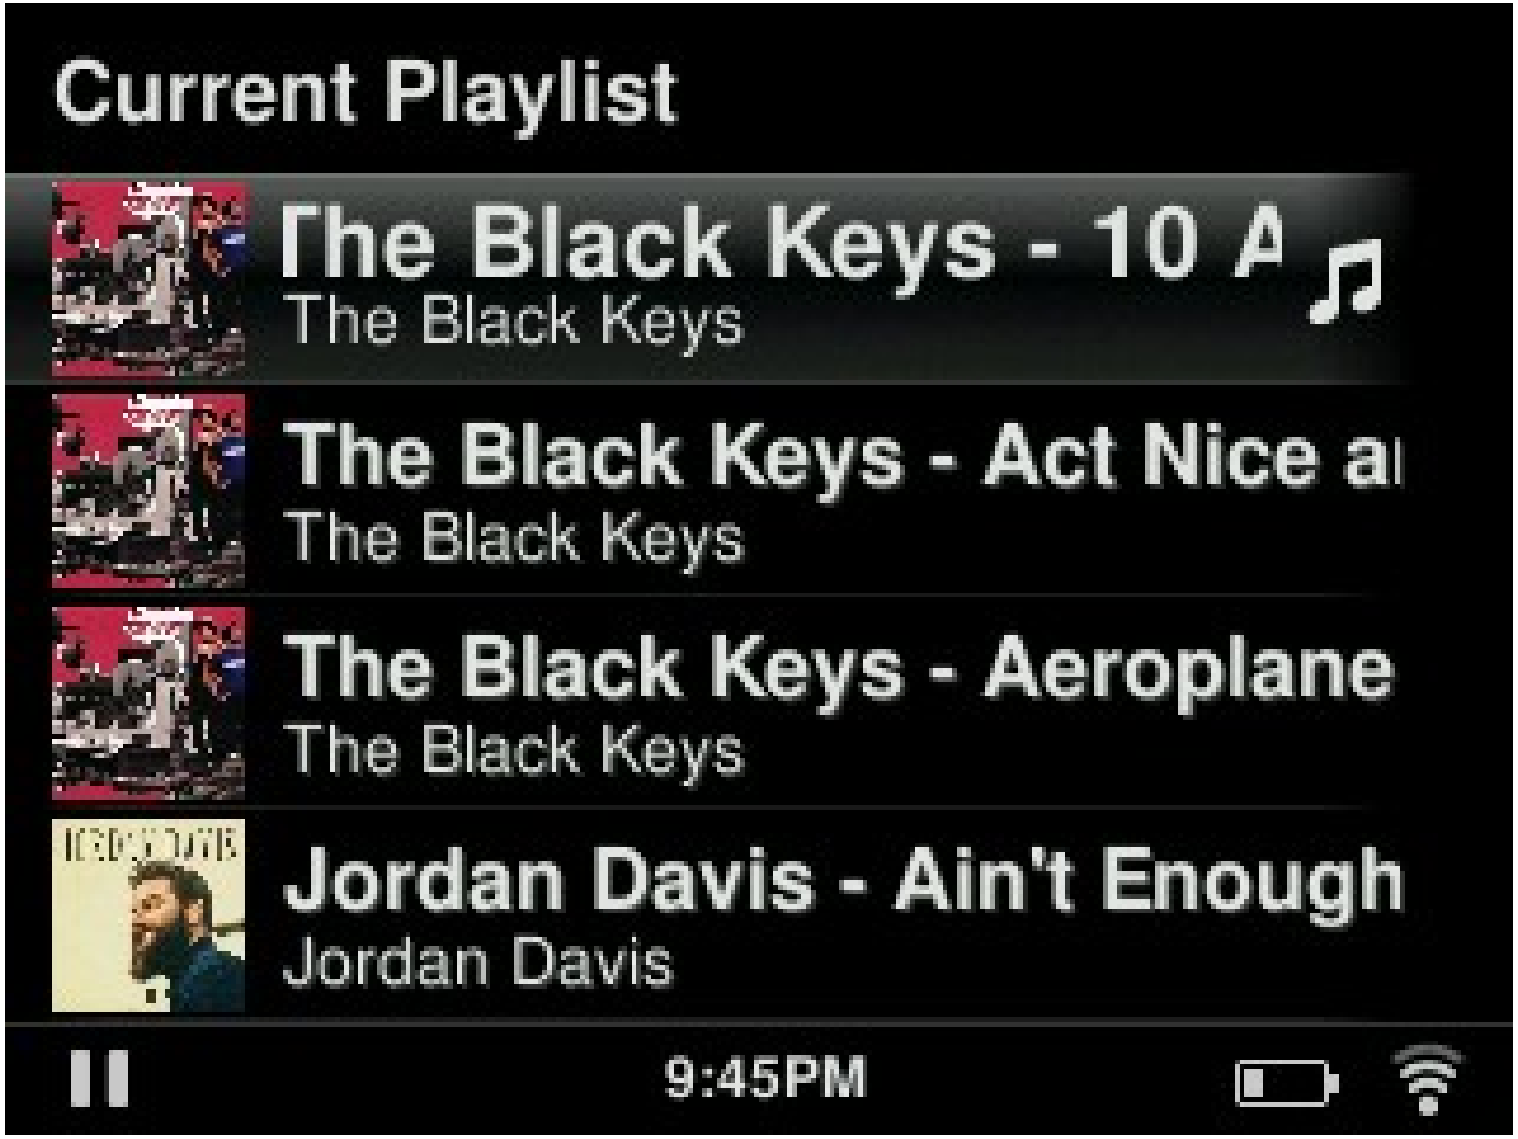

Home screen. Settings holds the HA Extras entry when it is enabled for the device.

Now Playing

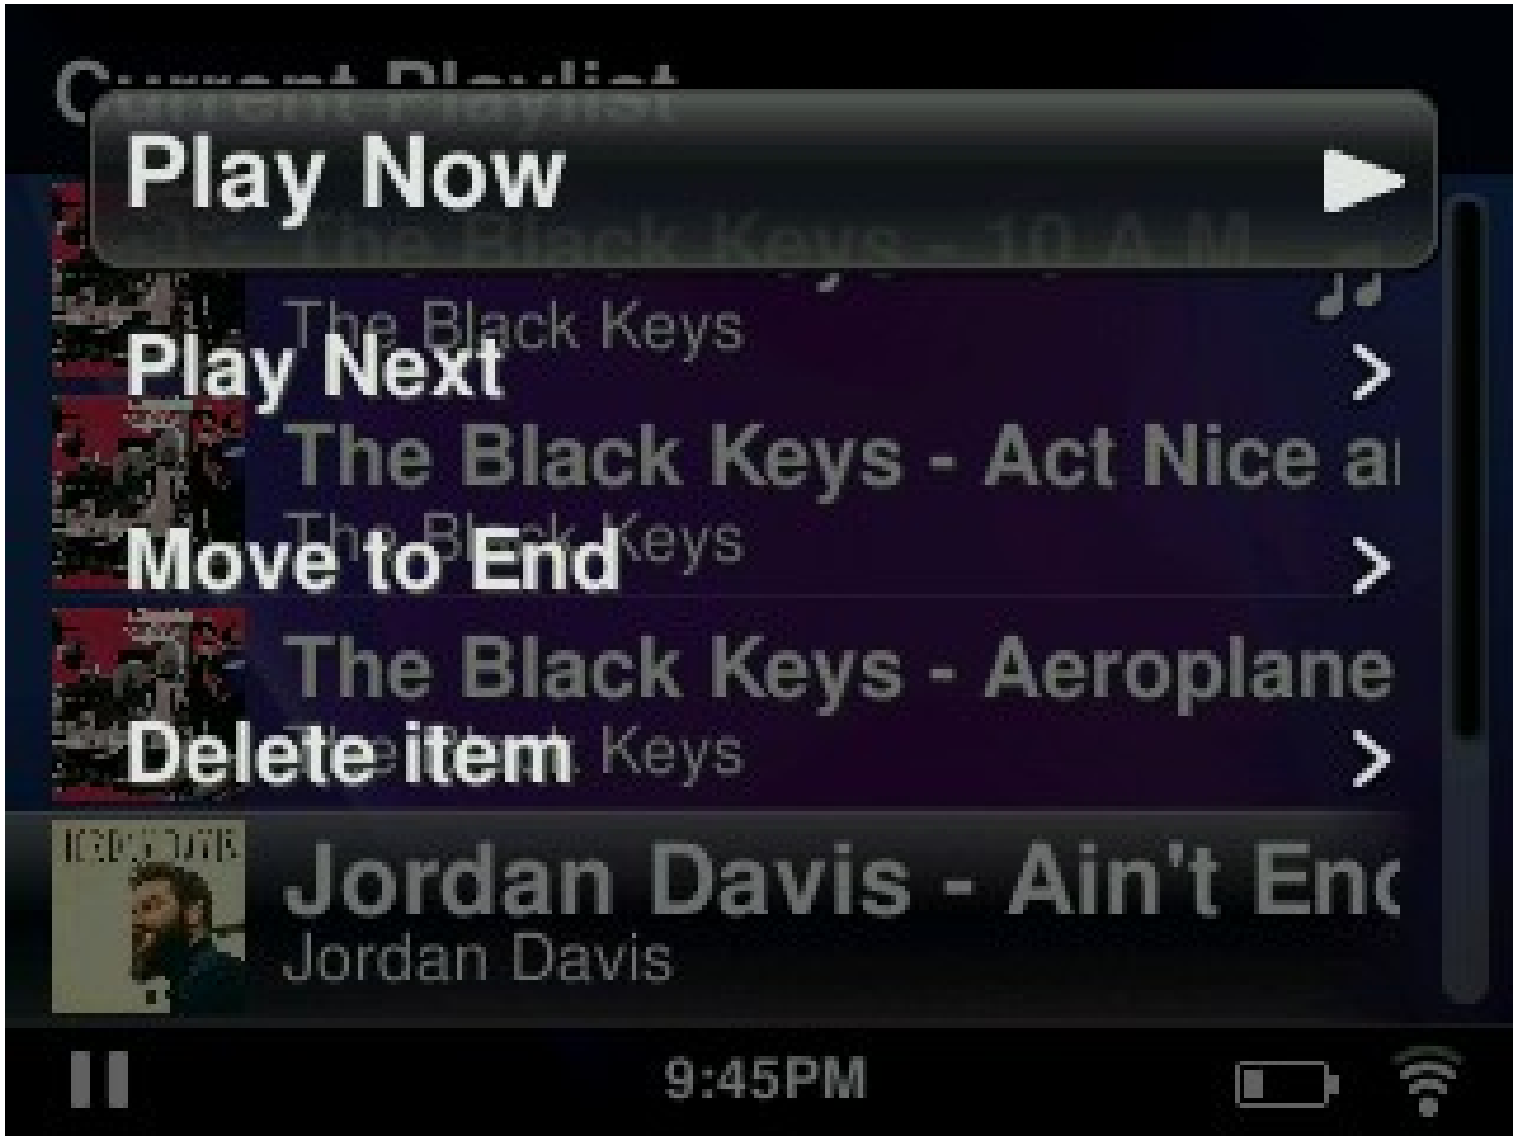

Shows the current track from the Music Assistant queue.
